Six new listings on Euronext markets in one week

Paris, 1 July 2005 – Six companies made successful starts on Euronext markets this week. They included **Airox**, **Saft** and **Entrepose Contracting** on the Euronext Paris Eurolist, **Satimo** and **Maximiles** on Alternext and **Altergaz** on the Marché Libre.

Saft raised EUR 280 million on the market, making it the second largest listing on Euronext Paris this year after Sanef.

With the successful admission of Maximiles and Satimo, Alternext, the Euronext market designed specifically for small and medium-size companies in the euro zone, now counts eight companies representing a wide variety of sectors — Adomos, CBO Territoria, Harvest, Maximiles, Meilleurtaux, MG International, Poweo and Satimo. Six listing sponsors provided support for these eight listings.

By mid-July, the number of companies listed on Alternext should rise to a dozen with the arrival of Freelance.com, Normaction, Sidetrade and Sporever.
