● *List and composition of Sector Indices based on new ICB classification*

Dear Client,

Amsterdam Indices

Further to the press release of 18 July 2005 concerning the ICB classification named "Industry Classification Benchmark", Euronext hereby publishes the list of the new Sector Indices, which will be calculated and broadcasted as from 5 December 2005 (please note that indices characteristics will be available in the referential message from 25 November 2005).

As from this date, Euronext will calculate all the indices of the level 1 (Industries) and those indices of level 3 (Sectors, except for Lisbon), which contain at least 5 values or represent more than 5 % of the capitalization of the reference index.

Euronext may in future calculate and broadcast other Sector Indices, according to the needs of the market.

Please be reminded that the old Sector Indices corresponding to the FTSE Global Classification will cease to be broadcasted on 5 December 2005. To serve the needs of market participants, Euronext Indices will continue to calculate them without broadcasting them, to be displayed on the Euronext.com site at the beginning of the year 2006.

1. List of indices :

Twenty-four « ICB » indices will be calculated for Euronext Amsterdam: 9 industries and 15 Sectors. The Sector Indices are sub-samples of the Amsterdam AllShares Index (AAX).
