

**Changement de la nomenclature sectorielle  
Passage à la nomenclature ICB dite Industry Classification Benchmark****Change of the sector based classification  
Adoption of the ICB Industry Classification System**

Euronext publie la classification indicative des valeurs cotées sur ses marchés selon la nomenclature ICB dite « Industry Classification Benchmark ». Ce classement prendra effet le 2 janvier 2006, date à compter de laquelle l'ensemble des sociétés cotées sur Euronext sera répertorié sur cette base. Cette nomenclature sectorielle remplacera la nomenclature FTSE dite « FTSE Global Classification System ». D'ici au 2 janvier 2006, les valeurs seront répertoriées selon les deux nomenclatures.

Euronext publishes the indicative classification of the companies listed on its markets according to ICB "Industry Classification Benchmark". This classification will be definitively implemented on January 2<sup>nd</sup>, 2006 where all the companies listed on Euronext will be classified according to this classification. This sectorial classification will replace the FTSE one "FTSE Global Classification System". Until January 2<sup>nd</sup>, 2006, the companies will be classified under both classifications.
