

# Broker and Prof Trade fee reductions for Euronext.liffe Amsterdam

November 2004

As part of Euronext.liffe's commitment to make trading equity derivatives simpler and cheaper, we have reduced, from 1 November 2004:

## 1. Broker fees for equity options: one fee per contract

The former broker fee (client account) for individual equity options depended on the premium amount of the option. The new fee is one amount per contract: € 0.80 for all premium amounts. For most trades this means a fee reduction of 41% per contract.

## 2. Prof Trades: fixed fee becomes maximum fee

The former fixed fee per order for Prof Trades is now a maximum fee per order. This means that a fee per contract is charged until the maximum fee per order is reached. This change aligns the fees for Prof Trades with the fees for Central Market Trades.

### Prof Trade fees: cheaper and simpler

- smaller Prof Trades become cheaper
- the advantage of a maximum fee for large Prof Trades remains
- for every order, the average fee per contract is equal to, or smaller than, the standard fee per contract
- no different fee scales: the fees for Prof Trades are equal to the fees charged for Central Market Trades.

### Prof Trades: advantages and features

The Prof Trade Facility is a Wholesale Facility that combines the freedom of the OTC market with the security of guaranteed settlement. Prof Trades are trades in equity, index and currency derivatives listed on Euronext.liffe Amsterdam, which take place outside the central market. The contracts resulting from a Prof Trade have standard contract specifications and are included in the open interest of the relevant options class. The key features of Prof Trades are:

- agree on a single price for a large order; price may be within, at or outside the best bid and offer on the central market in the same class
- the minimum tick size for Prof Trades is € 0.01
- no counterparty risk
- the entire Prof Trade must be entered in the trading system within one hour after completion
- Prof Trades can be entered in the trading system between 08:00 and 18:15 Amsterdam time
- interchangeability with contracts traded on the central market
- the minimum volume of a Prof Trade is 250 contracts for the initiator; no volume restrictions apply to the counterparties of these trades
- Prof Trades may involve a number of trades in different series in the same class (combination order); the contracts of all trade legs count to meet the minimum volume requirement
- the possibilities of the Prof Trade facility can be extended by Series-on-request. With Series-on-request, any expiry month and any strike price can be requested as long as its lifetime does not exceed the last existing expiry month of the option class. Members can request an option series before 16:30 (Amsterdam time) on trading days by calling Euronext.liffe Amsterdam Market Services on +31 (0)20 550 5050. More details can be found in Euronext announcement 2004-028.
