

# EURONEXT INDICES

## informs

**Date** > 14 June 2005  
**Subject** > Project: CAC AllShares Index

### ● **Launch of CAC AllShares index**

Euronext is pleased to inform customers that the **CAC AllShares index** will be launched on Euronext on **1 July 2005**, as announced in our press release of 2 November 2004 and the Euronext Indices information sheet of 23 December 2004.

The CAC AllShares index (**ISIN code: QS0010989141; Mnemonic: PAX**) is composed of all the stocks listed on Euronext Paris for which annual velocity ratio exceeds 5% of their shares. The index embeds indices such as the SBF 250 index.

The CAC AllShares index will be a weighted index by market capitalization (not adjusted by free float), and will be calculated daily at opening and at closing, as a Price Index and Net Return Index. Its base value will be **3000** at **31 December 2002**.

The index composition will be communicated in due course via an official notice.

Historical data for this index (going back to 30 December 1998) will soon be available on the Euronext website, [www.euronext.com](http://www.euronext.com).

Additional information: **Trading Group Code: 81; Market Feed Code: 01**

In addition, Euronext informs customers that the following indices will be stopped as from 30 June 2005 after the closing of market:

**Second Marché** (FR0003999515) **Nouveau Marché** (FR0003999556)

**MidCac** (FR0003999507) **ITCAC 50** (FR0003501998)
