

## Born Capital Services

Born Capital offers a full-service solution allowing companies and trading firms to outsource their technology requirements and exchange connectivity. Born Capital's systems offer ultra-high-speed access directly into the world's electronic futures exchanges.

**The Born Capital technology systems are built from the newest state-of-the-art components. All of the technology systems are under the exclusive control of Born Capital staff.**

### **Customised solutions**

Born Capital takes the time to comprehensively understand our clients' needs, so that we can create optimal custom solutions. We continuously work with our clients to help them reduce costs, streamline operations and ultimately increase their profitability.

### **Focus on professional traders**

Born Capital is exclusively focused on professional traders so that we can deliver on our promises to every single customer, every single time. This means no jammed phone lines or queues of customers waiting for service. Our focus on professional traders allows us to be immediately available to our customers, anytime and every time

### **24/7 management and maintenance**

In addition to our fully staffed 24-hour operation to supervise our technology systems, we have developed proprietary automated monitoring systems which analyse our systems and subsystems 24 hours per day, 365 days a year.

Many organisations make lofty promises about high uptime or fantastic customer service – promises that they just don't live up to.

**The proof is in the performance. At Born Capital, we deliver it.**
