

BT Radianz

Why BT Radianz for Liffe?

You can connect to Liffe easily and quickly, especially if you are already a part of the BT Radianz community. Connecting via BT Radianz means less infrastructure and less management overhead for you. Be assured that our exclusive focus on financial services firms allows us to tailor our technology, customer support and connectivity services to meet the exacting requirements of this industry.

About BT Radianz

BT Radianz is one of the leading providers of secure, reliable, and scalable connectivity and hosting to the global financial services community. BT Radianz's shared market infrastructure offers a platform optimized for the time-critical demands unique to financial services. The BT Radianz network connects over 10,400 financial sites around the world through a single, redundant, fully-managed connection, while also providing access to more than 550 pre-trade, trade, and post-trade applications from over 255 of the world's leading content and service providers across the straight-through processing (STP) chain. BT Radianz is part of BT Global Services
