Comunyteck Plug'n Trade product is an integrated STP platform for trading, quoting and clearing on organized Financials Markets. It is designed as a set of “pluggable” modules, where each installation can be configured using just the required functionalities. Developed using industry standard technologies: Java and .NET (MicroSoft).

The most relevant features are:

- MultiMarket and Multiproduct (Fixed Income, Equities, Derivatives & Cash)
- Highly efficient Order Management System.
- Real-time Risk Management for sophisticated pre and post-trading filtering
- Balance consumption closing based on: a) Commissions b) Profit&Losses c) Margin estimation (worst scenario algorithm)
- Optimized price dissemination, based on a star architecture
- Professional Trading Terminal, fully user configurable
- External systems gateway based on FIX protocol
- Integrated Supervisory Terminal.
