RTS is a leading Independent Software Vendor (ISV) and market leader in terms of functionality in electronic trading software for all traded products. With more than 3,000 user licenses and direct connectivity to more than **75 electronic exchanges** around the world, RTS has secured a solid position in the industry.

With RTD Tango, the algorithmic trading system, RTS has further strengthened its product portfolio.

### RTS product suite

**RTD Realtime Trading Desktop** – An innovative front end trading system with multiple exchange access & extremely fast execution capabilities.

**RTD Tango** – Multi asset & multi-exchange algorithmic trading system including testing capabilities.

**eRTD** – Internet trading platform with system independent JAVA front end supporting spread trading

**mRTD** – Develop your own in-house market or crossing engine with fully customizable market models.

**RTD-API** – An open interface for third-party applications

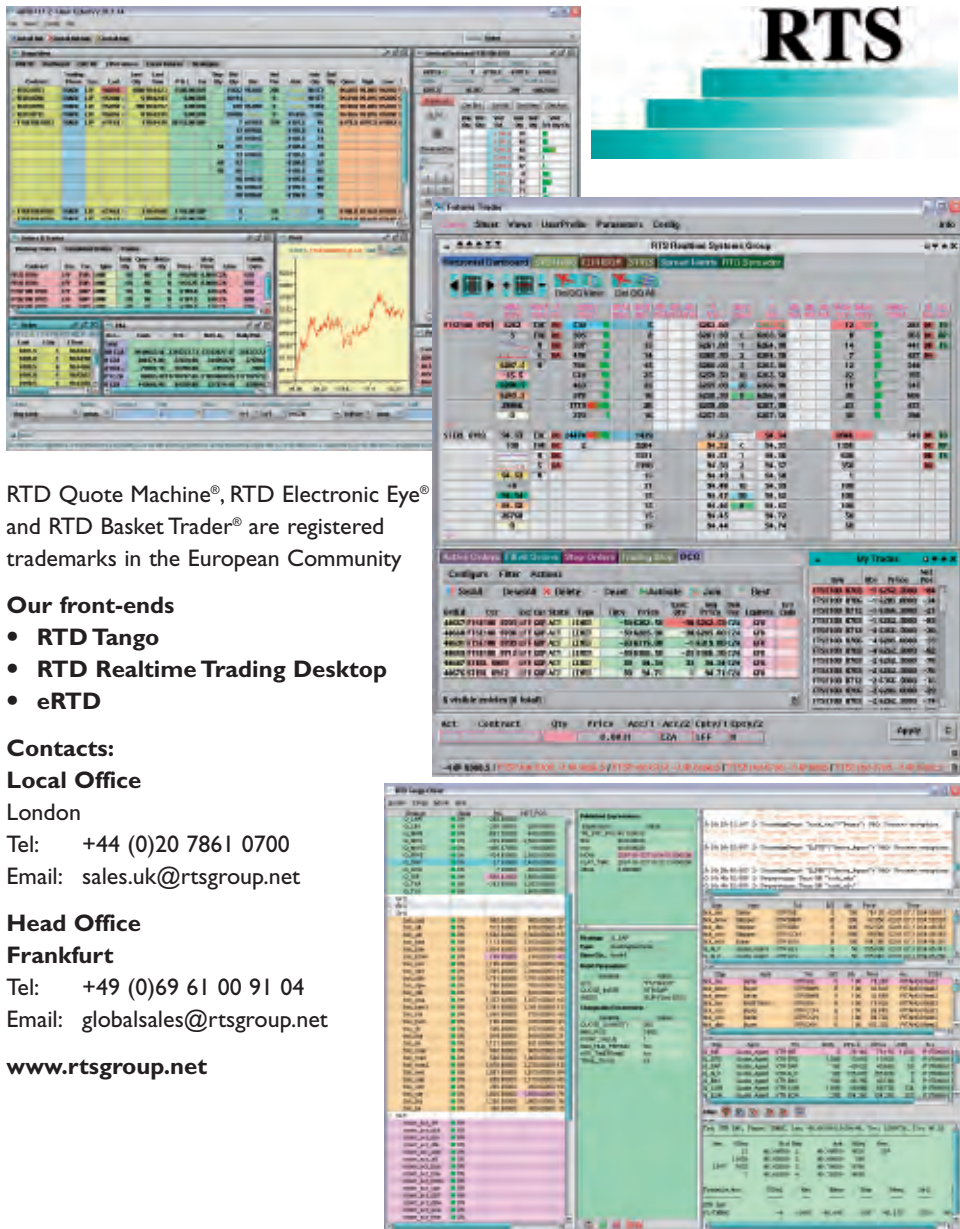

**RTD FIX-API** – A FIX 4.3 compliant order routing API

**RTD Connect** – Allows access to exchanges via clearers, brokers or affiliated companies, without individual exchange membership.

**RTD Net** – Innovative network solution and optional enhancement to RTD Connect.
