Founded in 2000, SuperDerivatives is one of the world's leading derivatives solution providers. It provides real-time accurate pricing, analytics and trading platforms for all options, based on a unique model which has become the world benchmark for option pricing.

SuperDerivatives' product suite covers the entire lifecycle of derivatives usage:

- Real-time, cross-asset pricing and analytics platforms
- Risk management systems
- Portfolio revaluation services
- Options market data portal
- Online trading platform

The SuperDerivatives multi-asset real-time pricing platform comes in separate banks and buy-side editions. It leverages SuperDerivatives' pricing engines, deal entry screens and communication infrastructure to offer feature-rich, flexible, efficient and secure trading. As such, it provides a bridge between the OTC and exchange-traded FX options markets.

Key Features:

- **All-In-One pricing and analytics for a vast array of options and structures** from simple Vanilla to the most exotic, structures and multi-leg custom strategies.
- **Comprehensive Term Structures** for all traded products, containing side-by-side listings of published prices and the prices produced by the SuperDerivatives benchmark pricing model,
- **Flexible Structuring tool** allows trading in multi-leg structures involving both exchange and OTC options.
- **Seamless on-click transition** from structuring and pricing to exchange or OTC trading execution.
- **Extensive post-trade portfolio management tools** including a multi currency horizontal display and lifecycle management of options.
- **Powerful risk management tools** including a Risk Matrix and volatility sensitivity analyzer.

- **Reduced transaction cost and operational risk**, achieved by smooth integration with customers' internal pricing, market data, credit and booking processes via Straight Through Processing (STP).
- **Intuitive, web-based, user-friendly user interface.**
- **Fully hosted with no need for IT resources.**

SuperDerivatives' customers include the vast majority of banks around the world, as well as numerous corporations, asset managers, hedge funds, fund administrators, custodians, auditors and central banks.
