

Man Financial Ltd.

Man Financial Ltd. supports multiple trading platforms for access to LIFFE CONNECT®.

Different trading styles demand different trading platforms and accordingly Man Financial's electronic trading philosophy is based on:

- choice of trading platforms
- individualised training and assistance in getting started
- superior technology
- instant trading and technological backup.

Our trading platforms are designed to suit either high or low volume clients.

We provide online order routing to the US open outcry markets, as well as Internet access to other electronic exchanges. Our trading systems support a full range of order types including, stop losses, stop limits, MIT, trailing stops etc. Real-time risk management, charting and daily Internet reconciliation is also available.

Free online trading demos and free one-on-one tutorials are available at www.mandirect.com

Automated black box futures

We also support a number of automated computer trading systems. These trading systems are computer-based "software systems" with buy/sell instructions generated by a proprietary software program. These systems can be viewed real-time and offer a variety of trading models. For a free real-time demo call +44 (0)20 7144 5500 or register at www.mandirect.com

Paper trading

We offer FREE paper trading against real-time prices. Traders can test their trading strategies against real market conditions or alternatively just practise trading electronically in a risk free environment. To register for a free Paper Trading demo go to www.mandirect.com
