

Santander Central Hispano

Your ETD broker

Your DMA trading platform

Santander Central Hispano, first bank of the eurozone in market capitalization, provides institutional clients with remote access to all major European and American futures and options exchanges including Liffe

- Clients can access, execute and manage trades from their own PC, choosing the Trading platform they prefer, with **direct access via Fix protocol**.
- We can also provide our clients with our in house trading platform to trade all the main European and American derivatives markets (**Liffe, MEFF, CME, CBOT**):

Key benefits of the Santander in house trading platform:

- Platform:
 - FREE platform
 - Direct Technical and Trading Support from Santander (no intermediary)
 - List of “technical events” (for a quicker incident resolution)
- Data Feed:
 - Real time quotes
 - Detailed dictionary of instruments (with contract names)
 - Depth window for all instruments
 - Tailor-made market information window (market spy)
- Trading:
 - All order types: stop losses, stop limits, GTD, GTC...
 - Executions confirmation (pop-up)
 - Executions Counter
 - Average Price of your executions in real time
 - Control & supervision of the orders from all your desk screens.
