

## UBS Investment Bank

### You & Us

#### The difference between being listened to and being understood

#### Bespoke Technology Solutions

At UBS, we deliver exceptional, value-added services based on a deep understanding of our client's requirements and goals.

Over 5,000 client's benefit from tailored technology solutions delivered through SwisKey™ our proprietary execution and clearing platform, Bloomberg Tradebook™, TT X-Trader™, FIX and other leading vendor solutions. This enables us to provide a complete straight-through processing solution in a seamless service with operational efficiency for your business.

All backed by an experienced 24 hour execution and IT support team and access to award winning research from UBS analysts.

As a leading Futures & Options provider, UBS continues to strengthen its offering in the provision of technology and services for its clients.
