

Effective Traders

Effective Traders is an Amsterdam based trading company specialising in cost effective solutions for self-funded financial traders and marketmakers on pan European financial markets.

Effective Traders Amsterdam facilitates an own dealing room for the professional trader. Traders can rent a workspace in the completely equipped, professional dealing room where they can use the fast and user-friendly trading application.

Traders rent a trade desk at Effective Traders Amsterdam that directly gives access to more than ten exchanges worldwide.

Effective Traders takes over all the administrative tasks of their participating traders. This way, we mutually profit from the large-scale operations advantage at the stock exchange and the clearing. Therefore, more participating traders lead to lower costs!
