## **Sol-3 GmbH & Co. KG**

Incorporated in 2000, Sol-3 is a specialized software vendor for electronic exchange trading systems.

The product Sol-3 Trader is designed to meet the requirements for today's sophisticated exchange trading. The main focus is speed! Our aim is to provide a software solution, which ensures long-term success for our customers in continuously accelerating markets and electronic trading.

Especially proprietary and derivatives traders, market-makers, algorithmic trading scripts and order routing systems will benefit from the software architecture and the design.

The Sol-3 Trader supports the main functionality and all product instruments from Euronext Liffe, Amsterdam and Paris.

Sol-3 Trader is a proven solution for stock-, derivatives and arbitrage-trading, market-making as well as automated rules-based trading (spread-trading, algorithmic-trading).

The Sol-3 Trader offers:

- Clicktrading
- Multi-Market-Trading
- Individual strategy and algorithmic trading
- Automated arbitrage trading
- Managed exchange connections for optimum throughput
- Order, Position, and Trade Management
- Risk Management
- Unmatched performance of the pricing
- Sophisticated volatility management

The benefits from Sol-3 are:

- Fast trading with minimal reaction & response times on market /order updates
- High hit rates on market opportunities
- Easy and comfortable fulfilling of market-making obligations
- Accurate theoretical price calculation for higher trading success
- Individual customer support and partnership approach
