**PROJECT: Universal Trading Platform – Market Data Feed**

## New version of configuration documents and new set of canned data for Universal Trading Platform Market Data Feed

NYSE Euronext would like to inform clients that updated configuration documentation pertaining to the Universal Trading Platform Market Data Feed for MMBA circuits is now available. A new set of canned data is also now available on the Euronext website. Please see below for further details:

**New and updated Protocol Universal Trading Platform-MD (Market Data) documentation:**

- **“External User Acceptance Feed Configuration” v1.4** (see “history” chapter for detailed information)
- **“Production Feed Configuration” v1.4** (see “history” chapter for detailed information)
- **“Canned Data” v1.3**: this new set of canned data reflects the current EUA.
- **“UTP Impacts on existing feeds FIM/TOPCAC/EMF” v1.0**: the purpose of this document is to highlight the main changes to the specifications due to the migration of NSC to the Universal Trading Platform.
- **“Euronext Multicast Feed Specification” v1.4** and **“Appendix to Euronext Multicast Feed Specification for Cash Markets” v1.4** (see “history” chapter for detailed information)
- **“FIM User Manual” v6.7.9** (see “history” chapter for detailed information)

The documents listed above have been updated to reflect the latest Universal Trading Platform evolutions (see “history” chapter for more details).

All of the abovementioned specifications are available on the Euronext website at:
