

31 March 2009

NYSE Arca Europe – updated list of stocks to be on the platform from 1 April 2009

Please find attached an updated list of instruments that will be available on the NYSE Arca Europe platform from **Wednesday, 1 April 2009**. This list replaces the list published on 26 March 2009.

The list now includes a new column displaying the Market Identifier Codes (MIC) of primary marketplaces, eg XLON for London Stock Exchange.

Two stocks, Unilever and Reed Elsevier, have been removed from the list published on 26 March.

The list is available on the website in Excel or csv format at www.euronext.com/NAE > Market model

(Please note that the list contains two separate worksheets – one listing stocks that will be available as of 1 April 2009 and one listing stocks that will be available as of 2 April 2009.)

From 1 April 2009, NYSE Arca Europe's trading scope will be extended to include UK stocks, which will be traded in pence and will be exempt from stamp duty for those members who have successfully applied for and received UK stamp duty exemption). In addition, the list of stocks from Austria, Denmark, Finland, Germany, Italy, Norway, Spain, Sweden and Switzerland available on the platform has been updated based on the list of most liquid securities published by the Committee of European Securities Regulators (CESR) on 1 April 2009.

NB: In the Market Data add-on info-flash of 25 March 2009, NYSE Euronext announced a technical evolution in the instrument characteristics of **0353 / 0453** and **U353 / U453** messages for instruments traded in GBP or USD. This evolution allows clients to be able to adjust the trade or strike price of an instrument if the ISO currency displayed is not the actual basis point used.

This technical evolution is available on the External User Acceptance (EUA) test environment and is due to be launched in production during Q2 2009.

For further information on the platform, please go to www.euronext.com/NAE or contact:
