

Index Announcement

Issue Date:	8 January 2009	N° 2009 – 002
--------------------	----------------	---------------

Market place: Amsterdam, Brussels, Paris

Indices: See appendix

Subject: Implementation Single Order Book

Effective date: 14 January 2009

Action: NYSE Euronext is pleased to provide market participants with further details about the consequences of the implementation of the Single Order Book for the Euronext indices.

With the implementation of the Single Order Book all multi-listed securities of the markets of Amsterdam, Brussels and Paris will have a Market of Reference (MoR)

Price source change for 10 index constituents

Of the approximately 50 multi-listed securities on Euronext, 30 belong to one or more indices calculated and broadcasted by Euronext. Of these 30 securities, ten belong to indices from different markets.

A multi-listed security that currently belongs to one or more indices will continue to be included in this or these indices after Single Order Book implementation. With the implementation of the Single Order Book, the price source of the Market of Reference of these stocks will be used to calculate the indices.

Details of the price source changes in the Euronext indices, effective as from Wednesday 14 January 2009 are available in the appendix here below.

Indices composition

Following the implementation of the Single Order Book, the composition of the impacted Euronext indices will remain unchanged, with:

- No change in the number of the index constituents
- No change in the characteristics of the index constituents (i.e.: weight, number of share, free float and capping factor)

APPENDIX

Price source changes in Euronext Indices will be effective as from **Wednesday 14 January 2009**.
