

NYSE Euronext – the world’s largest and most diverse global exchange group – offers a wide range of indices covering companies that account for substantial portions of the world’s markets.

These indices provide the investing public with benchmarks that measure various sectors and economies around the globe.

The CAC 40®, the most widely-used indicator of the Paris market, reflects the performance of the 40 largest equities listed in France, measured by free-float market capitalisation and liquidity. Its movements are closely correlated with trends in the market as a whole. It serves as the underlying for futures and options

traded on Liffe, NYSE Euronext’s leading international derivatives business and it serves as an underlying for ETF’s and structured products.

To learn more about the CAC 40, as well as our other index offerings, visit: www.nyseeuronext.com/nationalindices.
