

SeBroker becomes first Iberian trading firm on NYSE Arca Europe

NYSE Euronext's MTF welcomes leading Spanish broker for Paris market opening

SeBroker, one of Spain's leading independent financial firms, opened the NYSE Euronext cash market in Paris this morning to celebrate becoming a member of **NYSE Arca Europe**. The Barcelona-based brokerage house plans to significantly increase its trading operations and strengthen its geographic footprint across Europe by becoming NYSE Arca Europe's first Spanish and Portuguese member.

The sign-up of its first Iberian member is a significant development for NYSE Arca Europe, the pan-European MTF offering low-latency access to blue-chip stocks from 11 European countries. Leveraging NYSE Euronext's strong client base and cross-border basis in Europe, the MTF aims to attract order flow from High Frequency Traders (HFTs), as well as liquidity sourced from local brokers across Europe. SeBroker will not only help NYSE Arca Europe expand its order flow in the 41 Spanish stocks that are available on the platform, but also increase NYSE Arca Europe's order book diversity.

Alberto Romagosa, SeBroker's CEO, said: "It is more than an honour to be the first Spanish and Portuguese broker to join NYSE Arca Europe. This is a step forward for SeBroker's expansion plans. We strongly believe this new venue will further enhance the quality of execution and sourcing of liquidity SeBroker offers our institutional clients."

Virginie Saade, Head of NYSE Arca Europe, added: "We are absolutely delighted to welcome SeBroker as a member on our platform. This is a perfect example of our strength: by building on the long-established relationships that we have across Europe, we are confident that we will establish a sustainable pan-European platform for the future. With already more than 30 members, amongst them leading financial firms and HFTs from the UK as well as from continental Europe, this is a further positive step in expanding our footprint across Europe."

Miguel Gerales, Head of Markets for Euronext Lisbon, commented: "SeBroker's membership in NYSE Arca Europe represents a growing interest of the Spanish financial community in the different opportunities that NYSE Euronext has to offer."
