

NYSE ARCA EUROPE

Ultra-fast trading access across Europe. From a leading global exchange operator.

Easy transparent access to trade pan-European equities with ultra-low latency, high throughput and low fees.

With NYSE Arca Europe, trading across Europe is easy

NYSE Arca Europe is our pan-European Multilateral Trading Facility (MTF) that extends the trading scope of Euronext's regulated markets by adding blue-chip stocks from eleven European countries.

Why choose NYSE Arca Europe?

Fully integrated with NYSE Euronext, we are combining the best of both worlds for our clients: the flexibility of an MTF with the global trading expertise of a leading exchange.

Your benefits:

An efficient solution, fully integrated into NYSE Euronext systems.

Ultra-low latency, powered by proven cutting-edge technology.

Fee predictability with a pricing structure that delivers very competitive fees.

Easy connectivity for existing members through existing trading access.

Full market transparency, leveraging on the depth of the central order book.

Market coverage

We offer a central limit order book for trading a select group of top European liquid stocks from: Austria, Denmark, Finland, Germany, Ireland, Italy, Norway, Sweden, Switzerland, Spain, United Kingdom.

Key features

- NYSE Arca Europe is regulated by the Dutch regulator, Autoriteit Financiële Markten (AFM).
- Trades are published in real-time via NYSE Euronext market data feeds and systems.
- Fully compliant with MiFID obligations to ensure transparency and best execution for clients.
- Powered by the Universal Trading Platform, NYSE Arca Europe provides quick and effective access to fast execution, high throughput and strong resilience.
- Fully integrated with NYSE Euronext systems, NYSE Arca Europe is accessible through existing access means (Co-location, MMBA and CAP/MAP) and the SFTI® global network. Existing NYSE Euronext members can trade on the platform simply by extending their membership.
- Clearing and settlement is managed by EuroCCP to ensure an efficient pan-European low-cost solution; interoperability with other CCPs will be introduced later this year.
