## European Cash Markets: Business & Technology roadmap for 2010

NYSE Euronext is pleased to inform clients that a summary presentation of the most significant technology initiatives for European Cash Markets in 2010 (“**Business & Technology Roadmap 2010**”) is now available on our website in the following location:

[www.euronext.com/cashmembers](http://www.euronext.com/cashmembers) > Market/IT documentation > Technical

The document contains an overview of each initiative, an indication of the anticipated client benefits and target delivery timescales. In some cases, such as the Warrants migration to Universal Trading Platform, a specific go-live date is shown, whereas for several other initiatives, the target delivery date is indicative only. In many cases, the delivery date may be subject to change, not least because regulatory approval is required.

The most significant project for 2010 will be the migration to NYSE Euronext’s new European data centre located outside London, which is scheduled for September for Cash Markets and October for Derivatives. The project plan has been structured to reflect the expressed wish of many clients to migrate both Cash and Derivatives at a similar time. More details specific to this project will follow early in 2010.

This document will be updated and republished on a quarterly basis, with the next version due on 1 March 2010.

For further information regarding the major initiatives for 2010, please contact:
