

EURONEXT

Euronext Single Stock Options

New options for broader trading opportunities

Euronext offers an extensive range of Single Stock Equity Options on Belgian, Dutch, French, German, Italian and Norwegian underlyings.

Euronext is expanding this scope both within and outside its local markets with the launch of additional contracts.

New listings allow investors to gain exposure on stocks domiciled in European countries, starting with Germany, Ireland and Portugal, while benefitting from a single pool of liquidity and clearing efficiencies provided by Euronext Clearing.

Dedicated market makers, committed to provide on-screen liquidity, are supporting this expanded offering, adding more value for investors.

New German Single Stock Options: gain exposure on all the stocks in the DAX 40 Index

To complete the 20 successful German Options already listed and traded on a daily basis on Euronext since 2019, additional names are introduced, making all constituents of the DAX 40 Index available for trading via Euronext.

Portuguese

EDP Energias de
Portugal SA

Jerónimo Martins
SGPS SA

Galp Energia SGPS SA

EDP Renováveis

Key benefits

- ✓ A single order book, powered by Euronext's Optiq trading platform
- ✓ One pool of liquidity gathering a diversified range of investors from retail participants to market makers
- ✓ Robust risk management capabilities via Euronext Clearing
- ✓ Significant clearing efficiencies at the portfolio level and cross-product margin offsets thanks to Value-at-Risk margin methodology
- ✓ Attractive and aggressive pricing for all account types to facilitate trading. For example, existing and new German Single Stock Options are on average 40% cheaper than competing exchanges.
- ✓ Leverage on local Central Securities Depositories for reduced settlement fees and increased post-trade capability:
 - German Options: Clearstream*
 - Irish Options: Euroclear
 - Portuguese Options: Euronext Securities Porto

*Euronext Clearing offers the possibility for physically-delivered options on German stocks to use streamlined local settlement with Clearstream (CBF). This reduces inefficiencies in management of holdings and operational risk.

To take advantage of this opportunity, clients should contact their Euronext Clearing relationship manager or instruct their clearing agent to update their account structure form with the settlement location option as Clearstream.

As a prerequisite for this set-up clients must have an account with CBF.

For all other locations, local settlement is already in place, and is the default set-up.
