## 1.Introduction

Welcome to the CLIMP CA4U Guide, your comprehensive resource for navigating changes introduced by our new common Corporate Actions platform. This handful manual has been designed to provide all participants of Euronext Securities with practical details on our business operating model, as well as the functional and technical requirements for client activities. This handbook has been designed to guide you through the necessary configurations in the CLIMP platform. The aim is to provide clear instructions on how to access and utilize the features of CLIMP. Whether you are configuring services or managing accounts this guide will serve as your go-to reference. Our support Client Test will remain available for further support and ad hoc training sessions. Please contact us at [Test-CA4UMIL@euronext.com](mailto:Test-CA4UMIL@euronext.com) for any support needed.

### Purpose

Our Client Management Platform (CLIMP) is a web-based tool developed for the interactive communication and management of the information necessary for the

participation in services offered by Euronext Securities Milan. It is used by entities that meet the prerequisites established in applicable regulations and wish to complete or add, within their membership account, services, as well as existing clients looking to change their participation profile or expand their range of services. The platform has now a newly added functionality which englobes the management of payment cash coordinates in line with CA4U.

## **Access Information**

Only clients of Euronext Securities Milan who possess access credentials to the Moti4U platform can reach the CLIMP membership platform. Clients must have the necessary credentials, which are detailed in the "Welcome Kit" document available on the Euronext Securities Milan website: [ES-MIL Welcome-Kit](#).

You can access our official CLIMP production environment at the following links:

- <https://mtservices.montetitoli.it/prod>
- <https://mtservicesdr.montetitoli.it/avv>

If you encounter any issues with your credentials, please contact our support team for assistance: [sicurezza@euronext.com](mailto:sicurezza@euronext.com).

## **2.General CLIMP Functions**

### **2.1 Access to CLIMP**

Once authorised, users can access the MEMBERSHIP section from the menu, redirecting them to the CLIMP homepage to manage membership activities. Upon login, a pop-up indicates any missing mandatory data.

## CUSTODY

ACCESS TO THE SERVICE →

MT-X is an interactive dashboard for the management and real time monitoring of the domestic and international asset services. Our clients can access their securities accounts, view Corporate Actions and payment messages. Other ancillary functionalities, such as Election Services and document repository, are made available to our clients via MT-X.

## REAL TIME DASHBOARD

## SETTLEMENT

ACCESS TO THE SERVICE →

X-TRM is the pre-settlement platform of Euronext Securities /Milan that enables the ICPs to route domestic trades (on exchange and OTC) to T2S Platform and ensures the relevant settlement reporting. Finally, through its new functionalities, the platform allows all participants to conclude cross-border settlements with connected markets.

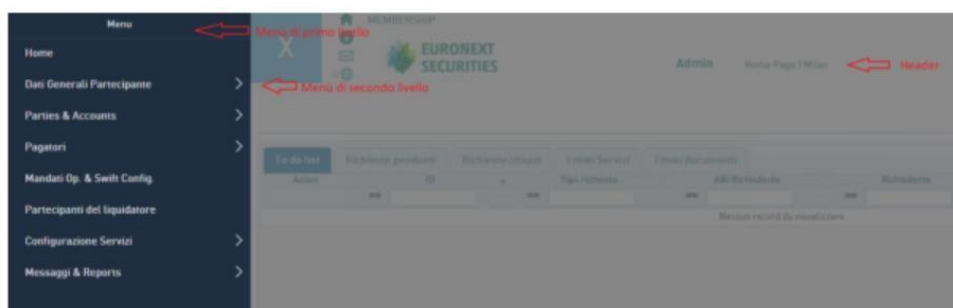

## MEMBERSHIP

ACCESS TO THE SERVICE →

CLIMP is the platform available to clients for the overall management of the membership with Euronext Securities /Milan. Through its user-friendly functionalities, participants can set-up and control their own securities and cash accounts, providing operational details that are useful for an optimal account administration, including the contractual and operational power of attorney.

## 2.2 Navigation Menu

CLIMP users, can easily navigate through the system using the first and second-level menus. The header displays the user's name and current menu. The platform is available in Italian and English.

## 3.T2S Configuration

New features have been added to CLIMP, fully dedicated to CA4U, including enhancements in the Cash Agents menu with the addition of two new categories.

### 3.1 Intermediaries

The first category ('My T2S Cash Agent for CA4U'), which corresponds to the existing function 'My T2S Cash Agents > T2S Payments Corporate Actions My Cash Agents', allows to associate the payment details of corporate actions processed via CA4U with an intermediary's accounts.

As part of the CA4U implementation, payments related to securities transactions currently processed through T2 will need to be migrated to T2S to ensure proper settlement of funds, included RCC payments.

a) Update payment instructions and configurations to align with T2S requirements.

+

NEW CA4U PAYMENT ASSIGNMENT

Cash Agent and the data required in the label are:

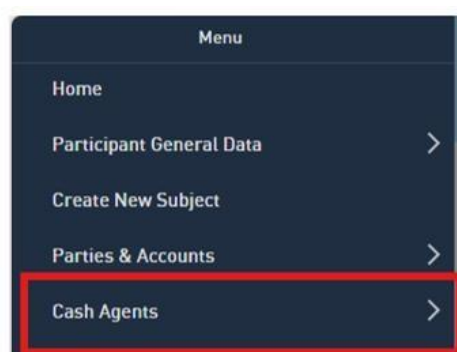

- Starting date (under approval of ES-MIL)

- Operation Type: almost one is mandatory CAOF and or CAOS - Cash Agent: choosing almost one among those proposed in the drop down list - Security Accounts.

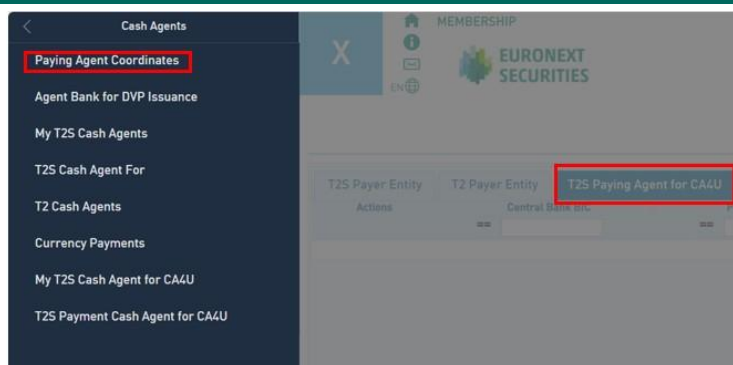

Once the configuration has been entered, ES-MIL will authorise it.

## 3.2 Paying Agent

Starting from the fact that with new CA4U platform it is not possible to manage payments in T2 mode the use of T2S is mandatory, excluding RCC because for this type of payment, T2 mode is still valid, so for paying agent currently operating in T2, a DCA (dedicated cash account) in T2S must be configured in CLIMP.

- Add new one or Modification:** In the Cash Agent menu > Paying Agent Coordinates > T2S Paying Agent for C4U > Add new one or Modification.

To add a new paying agent, click on:

**ADD NEW**

New Paying Agent Coordinates for CA4U

Operation Type *	CA4U

Data fine effettiva:	

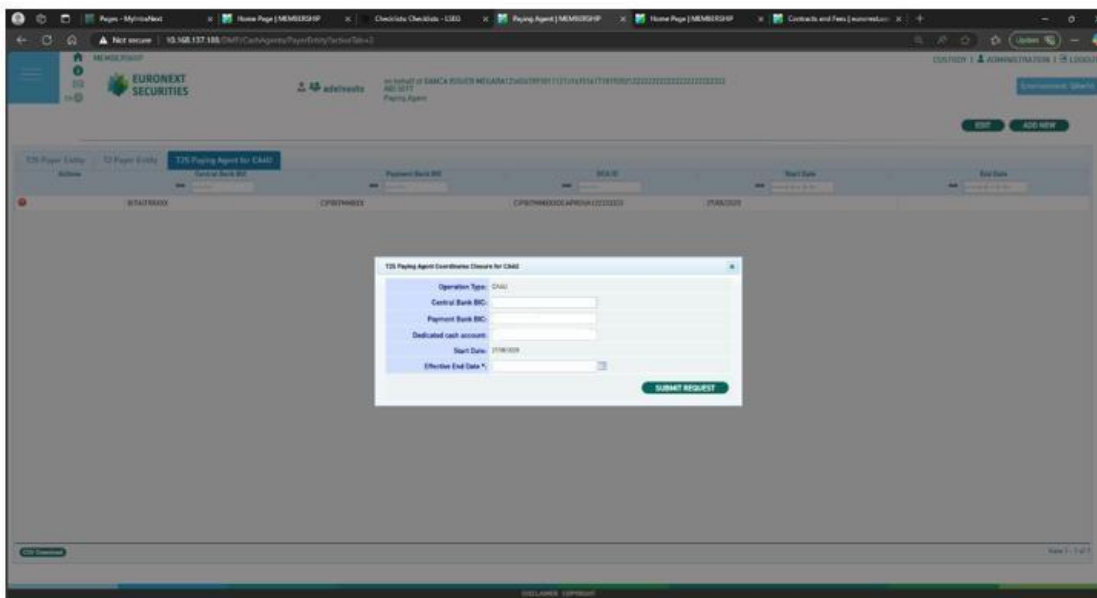

**INVIA RICHIESTA**

**b. In case of revocation:** Menu > T2S Payment Cash Agent for CA4U

CA REVOCATION FOR CA4U

Click on red button to close the configuration

### 3.3 Issuers

Issuers that have appointed a paying agent in T2 will need to appoint a paying agent in T2S and establish a DVP link.

This step permits the linkage between the issuers account and the paying agent DCA account in T2S. For such step to be validated in T2S, we remind paying agent to authorise the Bic of the issuer in the CMB in T2S.

DVP Payments in T2S	T2S Payments Corporate Actions	My Cash Agents					
MT Account ID	T2S Account ID	Rules	ABI Cash Agent	Business Name Cash Agent	Party BIC	Central Bank BIC	Payment Bank Party BIC
No records to view							

New Cash Agent

Proposal start date:
27/05/2025

Cash Agent :
Select Subject

Party BIC :

☐ Security accounts
☐ Default Link
☐ Collateralization Link
☐ Cash Settlement

Security accounts :

SUBMIT REQUEST

Issuers select Security Accounts, Default Link and Cash Settlement. The paying agent has to approve, and finally ES-Mil authorise it.

## 4. DVP Issuance

The current process for the DVP issuance does not change and all the current functionalities remain valid.

## 5. Additional Resources

For further details and updates, please refer to the Euronext Securities Milan website or contact our support team. We are committed to providing ongoing assistance and training to ensure your successful adaptation to our new implementations within our platform.
