

# EURONEXT GEM

SOURCING VALUE GLOBALLY  
FOR RETAIL INVESTORS

## A new GEM is waiting to be discovered at Euronext

Euronext GEM – previously BIT GEM - is a trading platform launched in 2016 by Borsa Italiana. The platform has benefited from a seven-year track record of deep retail liquidity, and GEM migrated to Euronext's Optiq trading technology in March 2023.

## The market for retail investors to trade pan-European and US shares

Euronext Global Equity Market (GEM) is a one-stop-shop MTF enabling retail investors to trade pan-European and US stocks.

Same features as Euronext's  
main regulated markets,

including microstructure, connectivity, matching engine, market surveillance and post-trade

Cleared and Settled in Euros (€)

respectively by Euronext Clearing (ex. CC&G) and Euronext Securities Milan (ex. Monte Titoli)

Trading After Hours (TAH)

running from 18:00 to 20:30 CET for Euronext GEM stocks and most liquid stocks of Euronext regulated markets

No additional membership fees nor market  
data fees

to trade on Euronext GEM and TAH
