In this context, the EU Platform on Sustainable Finance, with more than €1.1 trillion in ESG investments, has a key role to play in supporting ACCIONA’s sustainability strategy. The platform has committed to providing guidance on the interpretation and application of the EU’s sustainability-related reporting standards, and ACCIONA is actively involved in these discussions. In addition, ACCIONA is committed to publishing its mandatory Principal Adverse Impacts table under the regulation of the Sustainable Finance Disclosure Regulation (SFDR) on its corporate website. This approach is intended to provide information that is relevant to ACCIONA’s stakeholders, including shareholders, customers, and suppliers, and to support ACCIONA’s efforts to align its business strategy with the company’s sustainability goals.

How is ACCIONA preparing for the upcoming ESG Barometer? ACCIONA is taking a proactive approach to sustainability reporting, with the company’s Sustainability Officer, Ángel Tejero, and the German ESG rating agency imug rating in March 2023. The company has identified and mitigated all relevant risks, and is in a strong position to meet the expectations of ACCIONA’s stakeholders. ACCIONA’s Sustainability Master Plan includes specific targets for the reduction of greenhouse gas emissions, the development of renewable energy projects, and the implementation of other sustainability initiatives. The company’s efforts in this regard are supported by a dedicated sustainability department, which works closely with the company’s financial and non-financial departments to ensure alignment with the company’s long-term sustainability goals.
