GROUPE TERA LISTS ON EURONEXT GROWTH

€6 million raised; market capitalisation €14.4 million

Paris – 18 July 2019 – Euronext today welcomed Groupe TERA, a leading provider of air quality analysis, measurement and evaluation solutions, to its Euronext Growth market. A leader in the fight against air pollution, TERA is the 47th CleanTech company listed in Paris.

Founded in 2001, Groupe TERA has established itself in the forefront of air pollutant analysis, leveraging its leading status in the semiconductor industry. In the particularly demanding high-tech sector, Groupe TERA quickly gained a competitive edge in cleanroom solutions that address a key issue facing semiconductor manufacturers: the growing risk of airborne molecular contamination as components become smaller and smaller. Few companies have this level of expertise, and its proficiency in this area has earned Groupe TERA unique recognition, both from the market and from leading air quality agencies in France and abroad, and has enabled it to gradually expand its business into laboratory analyses of environmental, health and safety variables.

Groupe TERA has a strong and active commitment to R&D, which has led to the roll-out of two new synergistic methods for monitoring air quality in real time: proprietary sensors and a digital system including a mobile app to reduce exposure to air pollution. This enables the company to provide a 360° solution covering the entire value chain.

Groupe TERA (ticker code: ALGTR) was listed on Euronext Growth after the admission to trading on 18 July 2019 of 3,311,394 shares making up its share capital, including 1,379,310 new shares issued as part of a Global Offering.¹

The admission and issue price was set at €4.35 per share. Market capitalisation was around €14.4 million on the day of listing, and the operation raised a total of €6 million.

At the listing ceremony, Pascal Kaluzny, Chairman and CEO of the company, said: *“This listing represents an important step for Groupe TERA. It testifies to the quality of our technology and the soundness of our growth prospects, which are driven by our unique positioning along the entire value chain for monitoring air quality. We will be using the funds we’ve raised to accelerate our deployment plan, in which our latest-generation sensors figure prominently. I would like to thank our staff and our new shareholders, who share our ambition to reduce citizens’ exposure to pollution.”*

¹ The Global Offering was made up of a Public Offering that included an Open Price Public Offering and a Global Placement with institutional investors in France and other countries.

Notes to Editors:

- Euronext totals 56 CleanTech SMEs on its various exchanges with an aggregate market capitalisation of nearly €15.14 billion.
- Since 2017 over €1.7 billion have been raised in the secondary market by CleanTech companies.
- Neoen, a leading independent producer of renewable energy from solar, wind and biomass sources, was Euronext's most recent high-profile IPO, with €697 million raised in October 2018.
- The CleanTech sector breaks down into seven sub-sectors: green energy production, materials collection and recycling, green construction, materials and nanotechnology, transport and logistics, water and waste water, and energy storage.

About Groupe TERA

Groupe TERA was founded in 2001 and has 38 employees. The company is a leading provider of solutions for measuring, analysing and evaluating air quality in real time. Groupe TERA is currently one of the few companies in the world to span the entire air quality value chain, and can therefore meet the full range of customer needs through three complementary, synergistic solutions: a laboratory dedicated to analysing air pollutants in all environments; the design, development and marketing of innovative “Made in France” sensors for measuring air quality in real time; and a digital system involving a professional software application capable of processing air quality data collected by the sensors. An enhanced version of this digital system – including the company’s Breathe-Up mobile app’ and sensors for citizens – is available to local governments and individuals.

About Euronext

Euronext is the leading pan-European exchange in the Eurozone, covering Belgium, France, Ireland, the Netherlands, Portugal and the UK. The Norwegian stock exchange and its clearing & settlement subsidiary, together operating as Oslo Børs VPS, joined Euronext on 17 June 2019. With 1,239 listed issuers worth €3.8 trillion in market capitalisation as of end June 2019, Euronext is an unmatched blue chip franchise that has 26 issuers in the Morningstar® Eurozone 50 IndexSM and a strong, diverse domestic and international

client base. Euronext operates regulated and transparent equity and derivatives markets and is the largest centre for debt and funds listings in the world. Its total product offering includes Equities, FX, Exchange Traded Funds, Warrants & Certificates, Bonds, Derivatives, Commodities and Indices. Euronext also leverages its expertise in running markets by providing technology and managed services to third parties. In addition to its main regulated market, Euronext also operates Euronext GrowthTM and Euronext AccessTM, simplifying access to listing for SMEs.
