Stéphane Boujnah, Chief Executive Officer and Chairman of the Managing Board of Euronext, said:

“In the second quarter of 2020, Euronext delivered a solid performance with double digit growth across most asset classes, which, combined with continued cost control, translated into a higher EBITDA of €125.4 million and a +33.1% increase in adjusted EPS to €1.23. Euronext confirms its 2020 cost guidance of mid-single digit growth in 2020 compared to the annualised second half 2019 cost base, as costs related to the Oslo Børs VPS integration and strategic plan projects are expected to ramp up in second half 2020.

This second quarter, we also launched a suite of ESG products and services to empower sustainable growth. This constitutes an important milestone in the ESG roadmap of our three-year strategic plan ‘Let’s Grow Together 2022’. In addition, we became the first stock exchange to endorse the UN Global Compact’s nine Ocean Principles, having been an Official Supporter of the United Nations’ Sustainable Stock Exchanges initiative since 2015.

The third quarter has gotten off to a positive start for our ongoing diversification strategy, with the Danish FSA’s approval for the acquisition of VP Securities in July. We expect to close the transaction early August 2020, and the acquisition to be EPS accretive in full year 1. We are anticipating €7 million run-rate cash cost synergies in year 3, through organisational and IT optimisation, delivering a return in line with our investment criteria. The integration process has already started and we will report VP Securities’ revenue contribution from the third quarter.”

◆ New ESG milestones

ESG | Empowering Sustainable Growth

On 17 June 2020, Euronext announced the launch of a new suite of products, services and initiatives focused on Environmental, Social and Governance (ESG), designed to provide a robust framework of tools for European capital markets to fuel sustainable growth:

- Introducing the new Euronext ESG 80 index and derivatives
- Aligning Europe's leading Low Carbon 100 index to the Paris Agreement
- Expanding the Euronext ESG bonds offering
- Launching new ESG services and solutions for listed companies
- Endorsing the UN Global Compact's Ocean principles

Introducing a new Euronext ESG 80 index and derivatives and Paris-aligned Low Carbon 100 index to Europe's leading ESG index franchise

Euronext has partnered with Vigeo Eiris Moody's to design a new ESG index, the Euronext Eurozone ESG Large 80, which tracks the Eurozone's 80 best-performing Large Cap companies that are strong on social and governance criteria and on leading the transition to a low carbon economy. This new index responds to investors' need for a public climate action benchmark in the Eurozone.

On 1 June 2020, Euronext introduced its first futures derivatives contracts based on an ESG index. The ESG 80 futures provide effective hedging tools and allows more investors to gain exposure to the sustainable economy in the Eurozone. At launch, it is supported by four market makers, BNP Paribas, DRW, Optiver and Société Générale.

Today, Euronext, with its partners CDP, Carbone 4 and Vigeo Eiris Moody's, is pleased to announce that Europe's oldest and most successful low carbon index, the Low Carbon 100, is now aligned with the current draft of EU regulation on low carbon benchmarks in conformity with the Paris Agreement objectives, the framework of which is to be officially adopted later this year. Through Exchange Traded Funds provided by BNP Paribas, the index provides investors with a ready-to-use tool to support the environmental objectives required by the Paris Agreement i.e. a 7% year-on-year reduction of CO2 emissions, a limit of 1.5°C global temperature rises by 2050 and exclusion of fossil fuel companies.

Euronext currently provides clients with a comprehensive range of over 40 ESG index families based on a transparent and rules-based selection process, with input from expert partners in their fields such as Carbone 4, CDP, ISS-ESG and Vigeo Eiris Moody's.

Expanding Euronext Green Bonds to ESG Bonds

Capitalising on the success of the Euronext Green Bonds offering introduced last November, with an almost 70% increase in the number of issuers since launch, Euronext is expanding this offering to other ESG-related bonds, including blue, social, sustainability and sustainability-linked bonds. Euronext is the only exchange that consolidates ESG bonds listed in multiple locations into one highly visible web platform, thus providing a means for issuers to showcase their ESG credentials and for investors to rapidly identify ESG bonds. To date, 231 ESG bonds from 95 issuers are featured on the new Euronext ESG Bonds web platform.

Euronext is the world's number one bonds listing venue and has over €165bn of ESG bond issuances listed on its markets. €54.3 billion in green bonds was listed on Euronext last year and represented almost one fifth of global green bonds issued in 2019.

Launching new ESG Services to support listed companies in their ESG transition

As investors increasingly factor ESG criteria into their investment strategies, Euronext has developed a suite of innovative solutions for listed companies through its Euronext Corporate Services offering. These tailor-made ESG Advisory services enable issuers to reach new investors by clarifying their ESG strategy for capital markets and building their ESG profile with relevant reporting and improved governance. Additional services include digital tools for virtual roadshows and remote governance, contributing to enhancing the investor relations and board management experience, and reducing the environmental impact from business travel.

In January 2020, Euronext introduced a set of guidelines on ESG reporting for issuers. Drawing on recommendations from the UN Sustainable Stock Exchanges Initiative, the guidelines are designed to help listed companies structure their approach to ESG. Euronext has initiated, through FESE, a collective European task force to agree on common ESG measurement and reporting standards across all European exchanges.

Bolstering the Blue Economy

As an Official Supporter of the United Nations' Sustainable Stock Exchanges initiative since 2015, Euronext firmly commits to the UN's "2030 Agenda for Sustainable Development". Euronext is adding a new Sustainable Development Goal to the seven SDGs it has embraced in its ESG roadmap: "Goal 14: Life Below Water". On 2 June 2020, Euronext became the first exchange to sign the nine Ocean Principles with the ambition to take a leading role in advancing the Blue Economy. Euronext contributed to the UN Global Compact Sustainable Oceans Business Group formalising the UN Blue Bond principles, available since April 2020.

Euronext inclusion in the FTSE4Good Index Series

Following the June 2020 index review of the FTSE4Good Index Series, Euronext is now a constituent of the FTSE4Good Index Series, designed to independently assess and measure the performance of companies demonstrating strong ESG practices.

Protecting our communities

During the Covid-19 health crisis, Euronext's core objectives have been to ensure the health and safety of all team members. Euronext offered employees who were willing and able to volunteer in their community the opportunity to give up to one full day per week during the months of April and May to selected NGOs and service organisations offering critical services during the current health crisis. A number of employees have used this opportunity, as well as contributing office and private donations. Some local initiatives have included the distribution of food packages, donations of blood transfusions to Covid-19 patients and financial donations.

In addition, in a concrete gesture of European solidarity, Euronext distributed part of its face-masks stockpile across the primary locations where it operates in Europe:

- In Belgium, to the St Michel site of the Clinique de l'Europe.
- In Norway, to the Oslo University Hospitals Ullevål and Aker as well as the Department of Heart and Lung Disease at Bærum hospital.
- In Portugal, to the national health service's masks management system and to the Hospital de Jesus, run by the Congregation of the Franciscan Sisters of Hospitality.
- In the UK, to the A&E department of Chelsea and Westminster Hospital and to Euronext London's nominated charity Hestia, in addition to the Priory Church of St Laurence Blackmore.
- In France, to the Hôpital Saint Joseph in Paris and the Centre Pédiatrique des Côtes in Les Loges-en-Josas.
- In Ireland, to St Jame's Hospital and The Mater Hospital.
