1. INTRODUCTION

1.1 STANDARD FEES AND CHARGES

This publication sets out the subscriptions, standard fees and charges for products and services available on Euronext's Derivatives Markets. These may be subject to change during the course of the year. All cleared contracts are booked onto one of the accounts of the assigned member. The assigned member will be charged a trading fee for those contracts, based on, inter alia, the product, the account type and the role of the member.

1.2 CLEARING FEES AND CHARGES

Our derivatives markets are cleared by LCH S.A.

For questions about clearing fees related to products traded on the Amsterdam, Brussels, Lisbon, Oslo and Paris derivatives markets, please contact LCH S.A. at www.lch.com.

1.3 WHOLESALE TRADE FACILITY

The wholesale trade facility comprises a diverse set of trade types: Against Actual Facility, Exchange for Swap, Large-in-Scale Trade Facility and Request for Cross Facility. Not all facilities are available for all products: the Against Actual Facility and Exchange for Swap are not available for Financial Derivatives. Annex 1 of the Trading Procedures shows which facilities are available for which products. The Central Order Book fees also apply to trades executed via one of the wholesale facilities unless otherwise specified.

1.4 MAXIMUM FEE

For some products a maximum fee per order or a maximum fee per posting is applied.

The maximum fee per order is applied to trades that are traded on the same date, are booked on the account of the same member, have the same trading symbol (contract code), have the same account type (Client, House or Market Maker), have the same Position Account, have the same Customer Reference.

The maximum fee per posting is applied per individual posting. The posting of a trade leg is the process by which the Clearing Member registers a trade leg, or a part of a trade leg, either for its own account or for a third party account, on one of the Position Accounts opened in the Clearing Member's name in the Clearing System.

There are two different maximum fees for Large-in-Scale packages:

- At transaction level (potentially multiple instruments in the case of Strategy/Package and multiple counterparts): The maximum fee order is applied to trades that: are traded on the same date, are booked on the account of the same member, have the same trading symbol (contract code), have the same account type (Client, House or Market Maker), have the same Position Account, have the same Wholesale Transaction ID, have the same Customer Reference.
- At individual posting – i.e. Instrument symbol (for a package: at leg component level): The maximum fee per posting is applied per individual posting. The posting of a trade leg is the process by which the Clearing Member registers a trade leg, or a part of a trade leg, either for its own account or for a third party account, on one of the Position Accounts opened in the Clearing Member's name in the Clearing System.

If you have any questions concerning the content of this guide or would like further information on Euronext Derivatives Market services, please contact your local relationship manager on clientsupport@euronext.com.

2. COMMODITY AND CURRENCY DERIVATIVES

2.1 COMMODITY FUTURES AND OPTIONS CONTRACTS

This section sets out the fees for Euronext's commodity derivatives products available via the central order book.

- Agricultural contracts
 - Milling Wheat
 - Corn
 - Rapeseed
 - Rapeseed Meal
 - Rapeseed Oil
 - Skimmed Milk Powder
 - Unsalted Lactic Butter
 - Sweet Whey Food Grade Powder
 - Residential Wood Pellets

- Paris Real Estate futures contract

All fees are expressed in € (Euros) per lot per side.

- Agricultural contracts:

FUTURES AND OPTIONS CONTRACT	TRADING
Futures – Milling Wheat, Rapeseed, Rapeseed Meal, Rapeseed Oil, Corn, Skimmed Milk Powder, Unsalted Lactic Butter, Sweet Whey Food Grade Powder, Residential Wood Pellets	€0.25
Options – Milling Wheat, Rapeseed, Rapeseed Meal, Rapeseed Oil, Corn	€0.25

FUTURES CONTRACT - WHOLESALE TRADES	TRADING
Exchange for Swaps, Against Actuals, Exchange of Options for Options	€0.25

Notes:

Milling Wheat, Rapeseed, Corn, Dairy and Residential Wood Pellets contracts are often settled using “alternative delivery procedures” – see contract terms for further details.

- Paris Real Estate contract

FUTURES CONTRACT	TRADING
Futures	€2.30

2.2 CERES INCENTIVE PROGRAMME ON PARIS COMMODITY CONTRACTS

The details of the *Ceres* incentive programme on milling wheat, corn, rapeseed, rapeseed oil, rapeseed meal and residential wood pellets commodity derivatives contracts are as follows:

- 36-month *Ceres* programme, launched 2 January 2019;
- Open to all NEW proprietary traders;
- Applicable to both Paris Commodities Futures and Options commodity contracts;
- All NEW traders registered in 2020 (never previously registered in a New Market Participant (NMP) programme) are charged a trading fee of €0.09/contract;
- All registered in 2019 transfer into a higher trading fee bracket of €0.11/contract for products already traded in the program but €0.09/contract for any new product they trade;
- All registered in 2018 transfer into a higher trading fee bracket of €0.14/contract.
- All registered NMPs registering for new products are considered for this product as NEW and charged a trading fee of €0.09/lot the first year.

2.3 COMMODITY OPTION STRATEGY FEE

All option strategy legs benefit from a dedicated trading fee at €0.165.

The term “leg” is used to define one of the components of the option strategy. As an example, a butterfly strategy is composed of 3 strikes but 4 legs.

2.4 ARTEMIS LIQUIDITY PROVIDER FEE REBATE

Participants in the Artemis proprietary trading programme will receive a monthly rebate on their exchange trading fees for all commodity futures contract trades above a threshold of 50,000 lots per month, according to the following scale:

MONTHLY VOLUME SUPERIOR TO	MONTHLY VOLUME INFERIOR TO	THRESHOLD TRADING FEE
0	50,001	€0.25
50,000	100,001	€0.23
100,000	150,001	€0.20
150,000	200,001	€0.18
200,000	250,001	€0.15
250,000	300,001	€0.13
300,000	-	€0.10

- Participants reaching a threshold will be rebated on the basis of the trading fee for each lot of the given threshold (e.g. €0.25 trading fee for the first 50,000 lots, then €0.23 trading fee for any additional lot under 100,000 lots, and €0.20 trading fee additional lots under 150,000 lots etc).
- Volumes from the *Ceres* incentive programme are not counted when determining the monthly volumes of a participant.

- Participants in the Artemis programme will be required to flag all relevant orders and quotes on the Euronext Order Entry systems with the proper flag as specified by Euronext.
- The Artemis programme is open to any proprietary member or non-member firm. Firms wishing to participate in the Artemis programme will enter into a tripartite arrangement with Euronext and the Member intermediary, under the responsibility of the Member.
- The procedure for misflags is described in the “Procedure for Omission” section of this document.

3.2.1 Client fee rebate scheme on AEX-Index® options, Individual Equity Options and ETF options (Info-Flash)

- For trades in **AEX-Index options** (Monthly, Weekly and Daily options) that are booked on the client account, Euronext will rebate 100% of the exchange trading fees for all trades above the threshold of 100,000 lots per member position account per month (excluding trades booked through the Large-in-Scale Facility).
- For trades in **Individual Equity Options (IEOs)** and **ETF options** listed on the Amsterdam derivatives market that are booked on the client account, Euronext will rebate 100% of the exchange trading fees for all trades above the threshold of 200,000 lots per member position account per month (excluding trades booked through the Large-in-Scale Facility).
- For trades below the threshold, the existing fee scheme will be applicable.
- Trades booked through the Large-in-Scale Facility will not be eligible for the fee rebate.
- The fee rebate schemes are open to all trading members trading via the Client account. The fee rebate schemes will be effective from 1 January 2020 and is subject to cancellation with one month's notice at the discretion of Euronext and will automatically terminate on 31 December 2020.

3.2.2 Guidelines for adjusting the trading fee when contract specifications are changed due to corporate actions (Amsterdam Notice 06-044)

Contract specifications or a position can be adjusted due to corporate actions. The applicable trading fee can be adjusted after certain corporate actions in order to counter the extra costs that occur when an enlarged position is closed or to offer the possibility to close contracts with a non-standard contract size against reduced costs.

There is a large number of different corporate actions that cause adjustments to existing contracts or positions. Most of these adjustments can be classified in three main groups; each group has a specific fee adjustment. These three groups are:

ADJUSTMENT	DESCRIPTION	EXAMPLE CORPORATE ACTION
Multiplication position	The open interest is multiplied by using the ratio	Stock split
O-class	When application of the ratio results in a non-standard number of underlying shares (lot size), an O-class is created	Rights issue, special dividend
Basket of shares	The original underlying share is substituted by a package of shares of different companies. For this type of adjustment an O-class with more than 1 underlying value (the basket) can be created.	Spin off, demerger

The guidelines for adjusting the trading fee due to corporate actions are described below.

Non-member transactions (client account)

	EURONEXT TRADING FEE PER CONTRACT									
	FEE ADJUSTMENT	PERIOD OF ADJUSTMENT								
Multiplication position	Fee divided by split factor for closing transaction	Until and including the expiry day of the second month in the quarterly cycle (March, June, September, December) that is listed at time of the corporate action.

Notes:

- The maximum fee per order remains unchanged.
- For contracts with a standard lot size larger than 100, the brackets for O-classes are applied proportionally.
- When a corporate action requires a fee adjustment, the exact trading fee adjustment will be announced via a Corporate Action notice. Specific circumstances or unforeseen types of corporate action may cause Euronext to deviate from the guidelines.
- Trading fees will initially be charged at the standard rate and the relevant amount will be rebated one month in arrears.

4. MARKET MAKER AND LIQUIDITY PROVIDER TRADING FEES

4.1 STANDARD FEES AND CHARGES

This publication sets out the subscriptions, standard fees and charges applicable to Market Maker Agreements, Market Maker Schemes or Liquidity Provider Programmes for products and services available on Euronext's Derivatives Markets. These may be subject to change during the course of the year. All cleared contracts are booked onto one of the accounts of the assigned member. The assigned member will be charged a trading fee for those contracts, based on, inter alia, the product and the account type.

4.2 CLEARING FEES

For several products, Market Makers and or Liquidity Providers may also benefit from dedicated clearing fees. For questions about clearing fees related to products traded on the Amsterdam, Brussels, Lisbon, Oslo and Paris derivatives markets, please contact LCH S.A. at www.lch.com.

4.3 PERFORMANCE-RELATED TRADING FEES

Euronext may apply a dedicated trading fee scheme to Market Makers / Liquidity Providers who show a good monthly performance result¹. For each applicable product (type), a monthly performance is calculated for each Market Maker and the dedicated trading fee will be based on this monthly performance per applicable product, per Market Maker. For most Futures products, the Band 2 performance fee will be calculated as a linear function of the difference in fee between Band 1 and Band 3 divided by the difference in performance percentage points between Band 1 and Band 3. Details of the monthly performance per band are available in the applicable tables in this document.

The same dedicated trading fee may also apply on wholesale transactions depending on the specific Market Maker Scheme or Liquidity Provider Programme definitions.

In general, unless otherwise specified for the specific product, trading fees will initially be charged at the Standard Market Maker fee and the relevant amount will be surcharged or rebated at the end of the month, depending on the Market Maker's or Liquidity Provider's performance against the contractually defined performance requirements.

The parameters linked to the performance measurement are available on our website ([Optiq Derivative Market Making Parameter file](#)).

4.4 MARKET MAKER ACCOUNT

Members participating in any Market Maker Agreement, Market Maker Scheme or Liquidity Provider Programme will be required to flag all relevant orders and quotes on the Euronext Order Entry systems with the proper flag:

- SBE protocol: Field *Account Type* = '6'
- FIX protocol: Field *Account Code* = '6'

¹ Not applicable on all Market Maker Schemes/Liquidity Provider Programmes.

4.5 PROCEDURE FOR OMISSION

Market Makers and Liquidity Providers are fully responsible for entering the correct settings in the system to identify orders as MM/LP orders.

Market Makers and Liquidity Providers are by exception allowed to file for a misflag request, thereby asking Euronext for a reimbursement of relevant trading fees. Such requests are however to be made exclusively on an exceptional basis and they must be duly evidenced. Any such request must follow the procedure below in order to be considered and processed by Euronext.

1. To notify Euronext of a misflag and any related request, the Market Maker or Liquidity Provider must send a Misflag Request Form with return receipt to its usual Euronext account manager. Templates of the Misflag Request Form to be used are available online via the Euronext Connect customer portal at: <https://connect2.euronext.com/trade/market-makers-liquidity-providers> or through the account manager.
2. The Misflag Request Form must be sent within two months of the relevant invoice date with all relevant information so as to allow Euronext to process it. Information provided shall in particular include details (IT traces) of all orders sent via the Market Maker or Liquidity Provider's trading systems during the relevant period to which the misflag request relates.

Any misflag of orders is a violation of the Euronext Rule Book, and as such is duly analysed through a dedicated committee. Also note that in case of approval of the misflag, Euronext will remove from the overall amount to be reimbursed an amount corresponding to the amount in the violation (at least 10% the first time and more depending on the cases).

4.6 COMMODITY FUTURES AND OPTIONS

4.6.1 MARKET MAKER AGREEMENT

No financial benefits are granted to the participant in the Market Making Agreement.

4.6.2 MARKET MAKER SCHEME

Euronext trading fees for central order book trades qualifying for a Market Maker Scheme will amount to €0.25 per lot.

4.6.3 LIQUIDITY PROVIDER PROGRAMME

The performance for each Liquidity Provider on the Paris Real Estate futures contract Liquidity Provider Programme will be determined as per the below table:

PARTICIPANTS	REQUIREMENTS	TRADING FEE	INCENTIVE
1st best performing LP	Provide two-way prices on the Paris Real Estate futures contract with the following standard LP requirements (per day): <ul style="list-style-type: none"> ■ +50% presence ■ 10 lots minimum ■ 1% spread max 	€0 / lot (full fee holiday)	€5,000 per month (if standard requirements are met)
2nd best performing LP	Provide two-way prices on the Paris Real Estate futures contract with the following standard LP requirements (per day): <ul style="list-style-type: none"> ■ +50% presence ■ 10 lots minimum ■ 1% spread max 	€0 / lot (full fee holiday for 12 months)	€5,000 per month
3rd best performing LP			€5,000 per month
Other performing LP			Not applicable
Non performing LP		€3 / lot	Not applicable
<u>Introduction of an additional incentive for the 1st best performing LP</u>	Provide two-way prices on the Paris Real Estate futures contract with the following top tier LP requirements (per day): <ul style="list-style-type: none"> ■ +80% presence ■ 25 lots minimum ■ 1% spread max 	€0 / lot (full fee holiday for 12 months)	Additional €5,000 per month, meaning that the total incentive for the first best LP performing meeting the top tier requirements could total €10,000 per month

- This Programme starts at the go-live date of the futures contract and is active for 12 months, and renewable at Euronext discretion.
- The monitoring of the 3 best performing participants will be done based on the highest presence time and size per day, and tightest spread.

4.7 SINGLE STOCK FUTURES – ALL MARKETS

4.7.1 MARKET MAKER AGREEMENT

No financial benefits are granted to the participant in the Market Making Agreement.

4.7.2 MARKET MAKER SCHEME

The final monthly performance for each Market Maker will be determined per specific contract. The below table relates to the average performance achieved per specific contract.

1) Cash settled Single Stock Futures

Euronext trading fees for central order book trades qualifying for a Market Maker Scheme will amount to:

MONTHLY PERFORMANCE PERCENTAGE (mp)	FEE PER LOT
mp <50%	€0.05
$50\% \leq mp < 80\%^*$	%fee = 0.00167
mp ≥ 80%	€0.00
Maximum Trading fee per posting	€75

* The fee is related to the linear function between €0.00 and €0.05. As an example, a performance of 75% will result in a fee of $(€0.00 + 5 * €0.00167) = €0.00835$ per lot

Euronext trading fees for Large-In-Scale trades qualifying for a Market Maker Scheme will amount to:

FEE PER LOT	Maximum Trading fee per posting

4.13.3 INCENTIVE PROGRAMMES FOR PARIS EQUITY OPTIONS

PARIS EQUITY OPTIONS – VOLUME INCENTIVE

To reward those Market Makers who provide significant liquidity both on-screen and off-screen, the top performing Market Makers will benefit from an additional rebate.

At least 3 out of the 4 over-performance criteria (More strikes/Larger size/Tighter spread/Package names) must be met in the current tier, in order to benefit from the upgrade. No extra rebate is given if the qualifying Market Maker is already on the highest band in the rebate table on a certain product category.

PARIS EQUITY OPTIONS – LONG-TERM MATURITY INCENTIVE

For Paris Equity Options, the Market Making programme covers the maturities up to and including 12 months. A Long-Term Maturity Incentive programme is implemented to encourage Market Makers to provide liquidity for maturities above 12 months until 60 months (inclusive).
