**About Euronext Growth**

Euronext Growth is suited to small- and mid-sized companies (SMEs) that want to raise funds to finance growth. Listing requirements are simplified and reporting requirements are lighter than for the regulated market. Euronext Growth is open to both professional and individual investors. Although a controlled market, it is not regulated as defined by EU directives and thus offers an alternative route for organisations that are at earlier stages of development.

Since 2019 Euronext Growth has been officially registered as an "SME Growth Market" for both shares and bonds. This status, introduced under MiFID II, has been designed to facilitate access to capital markets for European SMEs by further developing qualified markets to cater to the specific needs of small and medium-sized companies.
