About Medica Group

Medica Group has been in operation since 1985 in the Mirandola Biomedical District of (Italy). Development of innovative products for blood purification has always been company's core business. Thanks to the activity of two extremely dynamic R&D groups (medical equipment, membranes and disposables), the Group competes successfully in several markets, namely:

- Medical (dialysis, CRRT, ECCO2, Apheresis, DFPP, CHF, HIPEC, pre-transplant organ perfusion, bioregenerative medicine, gastroenterology, urodynamics, oxygen humidification)
- Microbiological purification of water
- Industrial automation for the biomedical sector

R&D focus has been integrated over the years with highly automated production systems in five different facilities, four in Italy and one in Tunisia, and two commercial entities (in the US and in China). The key success factors of the Group are:

- extrusion of hollow fibre membranes for hemofiltration, plasmapheresis, cascade filtration, oxygen humidification, ultrafiltration and microfiltration of water
- vertical integration, proven by the ability to manage not only the design and development of medical disposables and equipment, but also the development of the automation technologies required for their production.
- international recognition with significant share of export (69% of revenues in 2020), with sales in over 60 countries.
