Board

Additional industry experts within selected
focus areas

Directly or indirectly in Saga Pure

Our investment approach

Private, early-stage companies

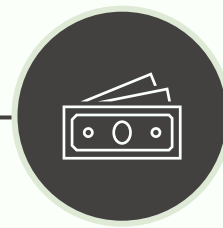

Active ownership,
help develop companies
to success

Listed companies

Strategic investments
(e.g., IPOs)

Shorter term trades & portfolio
management

Flexible ticket size

From NOK 10 – 100 million

Global reach

Significant international network,
collaboration with other investors,
R&D institutions & start-up
accelerators

What we are looking for

Technologies, not assets

Early-stage future unicorns

Significant environmental impact & growth potential

Solutions addressing gaps in the value-chain

Relevance in a 100-year perspective

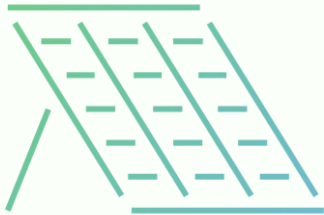

Preferably strategic match with current investments

Current investments

FOCUS AREAS:

Renewables

Circular

CO₂

Hydrogen

SAGA PURE

To list – or not to list list

IPO ready - or not

Everyone loves a good story – what's yours?

- Content, delivery and consistency
- Hero's journey irl – but no fairy tales, please

Focus & experience = credibility

- If everything is important, nothing is important – focus, and stand out
- Do what you know and know what you're doing – and love it

Don't get too greedy – you'll get what you deserve either way

- Risk is highest early on – reflect it in the valuation & don't obsess over control
- Everyone loves stuff in high demand – no one likes to think they've been screwed

Skin in the game

- Does management and board own shares?
- How important is the venture – on a personal emotional and economical level

SAGA PURE

seek and undestroy
