1. Introduction

1.1 Standard fees and charges

This publication sets out the subscriptions, standard fees and charges for products and services available on Euronext's Derivatives Markets. These may be subject to change during the course of the year.

All cleared contracts are booked onto one of the accounts of the assigned member. The assigned member will be charged a trading fee for those contracts, based on, inter alia, the product, the account type and the role of the member.

1.2 Clearing Fees and Charges

Our derivatives markets are cleared by LCH S.A.

For questions about clearing fees related to products traded on the Amsterdam, Brussels, Lisbon, Oslo and Paris derivatives markets, please contact LCH S.A. at www.lch.com.

1.3 Wholesale Trade Facility

The wholesale trade facility comprises a diverse set of trade types: Against Actual Facility, Exchange for Swap, Large-in-Scale Trade Facility and Request for Cross Facility.

Not all facilities are available for all products: the Against Actual Facility and Exchange for Swap are not available for Financial Derivatives. Annex 1 of the Trading Procedures shows which facilities are available for which products.

The Central Order Book fees also apply to trades executed via one of the wholesale facilities unless otherwise specified.

1.4 Maximum Fee

For some products a maximum fee per order or a maximum fee per posting is applied.

The maximum fee per order is applied to trades that are traded on the same date, are booked on the account of the same member, have the same trading symbol (contract code), have the same account type (Client, House or Market Maker), have the same Position Account, have the same Customer Reference.

The maximum fee per posting is applied per individual posting. The posting of a trade leg is the process by which the Clearing Member registers a trade leg, or a part of a trade leg, either for its own account or for a third party account, on one of the Position Accounts opened in the Clearing Member's name in the Clearing System.

There are two different maximum fees for Large-in-Scale packages:

- At transaction level (potentially multiple instruments in the case of Strategy/Package and multiple counterparts): The maximum fee order is applied to trades that: are traded on the same date, are booked on the account of the same member, have the same trading symbol (contract code), have the same account type (Client, House or Market Maker), have the same Position Account, have the same Wholesale Transaction ID, have the same Customer Reference.

- At individual posting – i.e. Instrument symbol (for a package: at leg component level): The maximum fee per posting is applied per individual posting. The posting of a trade leg is the process by which the Clearing Member registers a trade leg, or a part of a trade leg, either for its own account or for a third party account, on one of the Position Accounts opened in the Clearing Member's name in the Clearing System.

2. Commodities

2.1 Commodity Futures and Options Contracts

This section sets out the fees for Euronext's agricultural commodity derivatives products contracts:

- Milling Wheat
- Durum Wheat
- Corn
- Rapeseed

All fees are expressed in € (Euros) per lot per side.

■ Agricultural contracts, other than Corn or Durum Wheat futures:

FUTURES AND OPTIONS CONTRACT	TRADING
Futures – Milling Wheat, Rapeseed	€0.30
Options – Milling Wheat, Rapeseed, Corn	€0.30

FUTURES AND OPTIONS CONTRACT - WHOLESALE TRADES	TRADING
Large in Scale, Exchange for Swaps, Against Actuals, Exchange of Options for Options	€0.30

■ Corn and Durum Wheat futures:

Volume per month per member per contract (lots)	TRADING
0 – 14,999	€0.30
15,000 – 19,999	€0.13
from 20,000	€0.06

The trading fees for Corn and Durum Wheat will be based on the volume traded for each contract by a Euronext member over the course of the billing month:

- For all trades, up to the first 14,999 lots in a billing month, a Euronext member will be charged the base trading fee of €0.30 per lot.
- For every trade in a billing month where the volume for a Euronext member is between 15,000 and 19,999 lots, the fee for those transactions will be €0.13.
- For members where the total lots traded for the particular contract exceeds 20,000 in a billing month then the fee for each transaction exceeding 20,000 lots will be €0.06.

2.2 Commodity Option Strategy Fee

All option strategy legs benefit from a dedicated trading fee at €0.21.

The term “leg” is used to define one of the components of the option strategy. As an example, a butterfly strategy is composed of 3 strikes but 4 legs.

2.3 Trading Fees Waiver For Commodity Options Executed In The Central Orderbook

OPTIONS CENTRAL ORDERBOOK TRADES – fees waiver	TRADING
Milling Wheat, Corn, Rapeseed	€0 (ZERO)
Milling Wheat, Corn, Rapeseed – strategies legs	€0 (ZERO)

The trading fees waiver for commodities options executed in the central order book will be implemented for each Euronext member over the course of the billing month. Each Euronext member will receive 100% rebate on the trading fees at the end of the month.

2.4 Artemis Liquidity Provider fee rebate

The Artemis proprietary trading programme is available for participants to join for either commodity future contracts, or commodity options contracts, but not both.

■ Artemis for commodity futures contracts:

Participants in the Artemis proprietary trading programme for commodity futures contracts will receive a monthly rebate on their exchange trading fees for all commodity futures contract trades above a threshold of 50,000 lots per month, according to the following scale:

MONTHLY VOLUME SUPERIOR TO	MONTHLY VOLUME INFERIOR TO	THRESHOLD TRADING FEE
0	50,001	€0.30 (base trading fee)
50,000	100,001	€0.23
100,000	150,001	€0.20
150,000	200,001	€0.18
200,000	250,001	€0.15
250,000	300,001	€0.13
300,000	-	€0.10

- Participants reaching a threshold will be rebated on the basis of the trading fee for each lot of the given threshold (e.g. €0.30 trading fee for the first 50,000 lots, then €0.23 trading fee for any additional lot under 100,000 lots, and €0.20 trading fee additional lots under 150,000 lots etc).

- Participants in the Artemis programme will be required to flag all relevant orders and quotes on the Euronext Order Entry systems with the proper flag as specified by Euronext.
- The Artemis programme is open to any proprietary member or non-member firm. Firms wishing to participate in the Artemis programme will enter into a tripartite arrangement with Euronext and the Member intermediary, under the responsibility of the Member.
- The procedure for misflags is described in the "Procedure for Omission" section of this document.

■ **Artemis for commodity options contracts:**

Participants in the Artemis proprietary trading programme for commodity options contracts will receive a monthly rebate on their exchange trading fees for all commodity option contract trades above a threshold of 2,500 lots per month. There is also additional support in addressing the delta hedge of commodity options users.

As an additional incentive for liquidity providers on options, the same level of rebate is also granted for futures, capped to the option volumes.

Artemis for options is separate and non-cumulative with any other commodity pricing programme, according to the following scale:

MONTHLY VOLUME SUPERIOR TO	MONTHLY VOLUME INFERIOR TO	THRESHOLD TRADING FEE
0	2,501	€0.30
2,501	5,001	€0.23
5,001	7,501	€0.20
7,501	10,001	€0.18
10,001	12,501	€0.15
12,501	15,001	€0.13
15,001	-	€0.10

2.5 Liquidity Provision Programme

2.5.1 Liquidity provision programme for commodities options executed in the Central Order Book

The liquidity provision programme is open to all market participants meeting the eligibility criteria. See chapter 4 for more information.

3.2.1 Client fee rebate scheme on AEX-Index® options

- For trades in **AEX-Index options** (Monthly, Weekly and Daily options) that are booked on the client account, Euronext will bill €0.31 per lot for the first 100,000 lots. Then, for the next 100,000 lots (between 100,001 lots and 200,000 lots), a discount scheme will be applied with a negative fee of –€0.25 per lot, considering a minimum fee per order of –€200. And for all trades above the 200,000 threshold per member position account per month, Euronext will rebate 100% of the exchange trading fees.
- Trades booked through the Large-in-Scale Facility will not be eligible for the fee rebate.
- The fee rebate schemes are open to all trading members trading via the Client account.

3.2.2 Client fee rebate scheme on Individual Equity Options and ETF options

- For trades in **Individual Equity Options (IEOs)** and **ETF options** listed on the Amsterdam derivatives market that are booked on the client account, Euronext will bill €0.31 per lot for the first 200,000 lots, considering a maximum fee per order of €250. Then, for the next 200,000 lots (between 200,001 lots and 400,000 lots), a discount scheme will be applied with a negative fee of –€0.25 per lot, considering a minimum fee per order of –€200. And for all trades above the 400,000 threshold per member position account per month, Euronext will rebate 100% of the exchange trading fees.
- Trades booked through the Large-in-Scale Facility will not be eligible for the fee rebate.
- The fee rebate schemes are open to all trading members trading via the Client account.

3.5.1 Client fee rebate scheme on OBX Index Options and Oslo Individual Equity Options

This scheme refers to **volumes traded on client account in** the Amsterdam market.

In order to benefit from this scheme, members must participate in and meet the volume thresholds of the Amsterdam scheme as explained below:

OBX Index Options

- For trades in OBX Index Options that are booked on the client account, Euronext will rebate 100% of the exchange trading fees for all trades (excluding trades booked through the Large-in-Scale Facility), as long as the member has reached the 100,000 lots threshold on AEX-Index[®] options per member position account per month (excluding trades booked through the Large-in-Scale Facility)
- Volume in the OBX Index Options will not count towards meeting the threshold for AEX-Index[®] options on the Amsterdam market.
- If the Amsterdam threshold is not met, the member will pay the normal client trading fee for OBX Index Options.

Individual Equity Options (IEOs)

- For trades in IEOs listed on the Oslo derivatives market that are booked on the client account, Euronext will rebate 100% of the exchange trading fees for all trades (excluding trades booked through the Large-in-Scale Facility), as long as the member has reached the 200,000 lots threshold of IEOs and ETF Options listed on the Amsterdam derivatives market per member position account per month (excluding trades booked through the Large-in-Scale Facility)
- Volume in the Oslo listed IEOs will not count towards meeting the threshold for Amsterdam IEOs and ETF Options.
- If the Amsterdam threshold is not met, the member will pay the normal client trading fee for the Oslo market.
- If the Amsterdam Client fee rebate scheme on AEX-Index[®] options, Individual Equity Options and ETF options is cancelled, this Client fee rebate scheme is automatically cancelled.
- This Client fee rebate scheme is subject to cancellation with one month's notice at the discretion of Euronext.

4. Market Maker And Liquidity Provider Trading Fees

4.1 Standard Fees And Charges

This publication sets out the subscriptions, standard fees and charges applicable to Market Maker Agreements, Market Maker Schemes or Liquidity Provider Programmes for products and services available on Euronext's Equity and Commodity Derivatives Markets. These may be subject to change during the course of the year. All cleared contracts are booked onto one of the accounts of the assigned member. The assigned member will be charged a trading fee for those contracts, based on, inter alia, the product and the account type.

4.2 Clearing Fees

For several products, Market Makers and or Liquidity Providers may also benefit from dedicated clearing fees. For questions about clearing fees related to products traded on the Amsterdam, Brussels, Lisbon, Oslo and Paris derivatives markets, please contact LCH S.A. at www.lch.com.

4.3 Performance-Related Trading Fees

Euronext may apply a dedicated trading fee scheme to Market Makers / Liquidity Providers who show a good monthly performance result¹. For each applicable product (type), a monthly performance is calculated for each Market Maker / Liquidity Provider and the dedicated trading fee will be based on this monthly performance per applicable product, per Market Maker / Liquidity Provider.

The parameters linked to the performance measurement are available on our website ([Optiq Derivative Market Making Parameter file](#)).

Equity Derivatives

For most Equity Futures products, the Band 2 performance fee will be calculated as a linear function of the difference in fee between Band 1 and Band 3 divided by the difference in performance percentage points between Band 1 and Band 3. Details of the monthly performance per band are available in the applicable tables in this document.

The same dedicated trading fee may also apply on wholesale transactions depending on the specific Market Maker Scheme or Liquidity Provider Programme definitions.

In general, unless otherwise specified for the specific product, trading fees will initially be charged at the Standard Market Maker fee and the relevant amount will be surcharged or rebated at the end of the month, depending on the Market Maker's or Liquidity Provider's performance against the contractually defined performance requirements.

¹ Not applicable on all Market Maker Schemes/Liquidity Provider Programmes

Commodity Derivatives

Each liquidity provider meeting the criteria of the liquidity provision programme for commodities options executed in the Central Order Book during a month will benefit from a 100% rebate on the trading fees. In addition, the top performer with the highest volume during the month will be granted a stipend of €5,000. These rebates are separate to and non-cumulative with any other commodity pricing programme, including the trading fees waiver for commodity options executed in the Central Order Book (cf section 2.3), and the Artemis programme (cf. section 2.4).

4.4 Market Maker Account

Members participating in any Market Maker Agreement, Market Maker Scheme or Liquidity Provider Programme will be required to flag all relevant orders and quotes on the Euronext Order Entry systems with the proper flag:

- SBE protocol: Field *Account Type* = '6'
- FIX protocol: Field *Account Code* = '6'

4.5 Procedure For Omission

Market Makers and Liquidity Providers are fully responsible for entering the correct settings in the system to identify orders as MM/LP orders.

Market Makers and Liquidity Providers are by exception allowed to file for a misflag request, thereby asking Euronext for a reimbursement of relevant trading fees. Such requests are however to be made exclusively on an exceptional basis and they must be duly evidenced. Any such request must follow the procedure below in order to be considered and processed by Euronext.

1. To notify Euronext of a misflag and any related request, the Market Maker or Liquidity Provider must send a Misflag Request Form with return receipt to its usual Euronext account manager. Templates of the Misflag Request Form to be used are available online via the Euronext Connect customer portal at: <https://connect2.euronext.com/trade/market-makers-liquidity-providers> or through the account manager.
2. The Misflag Request Form must be sent within two months of the relevant invoice date with all relevant information so as to allow Euronext to process it. Information provided shall in particular include details (IT traces) of all orders sent via the Market Maker or Liquidity Provider's trading systems during the relevant period to which the misflag request relates.

Any misflag of orders is a violation of the Euronext Rule Book, and as such is duly analysed through a dedicated committee. Also note that in case of approval of the misflag, Euronext will remove from the overall amount to be reimbursed an amount corresponding to the amount in the violation (at least 10% the first time and more depending on the case).
