01

ABOUT MTS

MTS is a leading operator of regulated electronic fixed income platforms for European rates, credit and money markets supporting daily transaction volumes of more than €180 billion.

For over 35 years, MTS has supported the European fixed income market through regulated electronic markets in Europe and beyond, bringing traders together to unlock liquidity, maximise trading opportunities, and optimise post-trade processes.

As a one-stop shop, MTS' cutting-edge trading solutions and market data meet the ever-changing requirements of market participants across the buy- and sell-side, and support a wide range of instruments, order types, and access methods.

MTS is part of the Euronext Group, the leading pan-European market infrastructure provider, and our clients benefit from synergies with Euronext's diverse product offering and geographical coverage.

BUY-SIDE

MTS Markets supports daily transaction volumes of more than €180 billion

02 MTS Markets

Connect to an extensive network of regional and global liquidity providers with MTS Markets.

MTS Network

- MTS is linked to all the major European clearing houses and central securities depositories (CSD), either domestic or international
- Upon trade execution, settlement instructions are automatically created and sent in real-time by MTS to the relevant central counterparties or CSDs/ ICSDs on behalf of market participants
- Copy messages can be sent to custodian banks and/or general clearing members for reconciliation purposes
- The automatic creation of identical instructions for both parties eliminates any risk of post-trade discrepancies and mismatching errors

MTS Connectivity

- The most effective and rapid way of communicating with the MTS markets is to use the SDP native protocol. FIX protocol connectivity is also supported
- Members can implement more sophisticated solutions (e.g. custom GUIs, auto-quoters applications) or integrate MTS trading functionality within their existing applications (e.g. deal-capture for risk management systems)
- MTS also provides market participants with easy-to-use and functionally rich trading standard reference GUIs for ease of accessing the MTS markets
- The MTS markets platform can be accessed either via leased line connectivity or public internet
- Official network service providers for leased line connectivity currently authorized by MTS are: BTRadianz, SIA, BltNet (Borsa Italiana Group) and Colt.

03 Cash

MTS Cash markets participants benefit from access to a liquid, transparent and efficient European bond marketplace and the largest interdealer network, with innovative technology, comprehensive support and wide product coverage.

MTS Cash is a comprehensive and professional cash securities trading environment for the interdealer marketplace.

BENEFITS INCLUDE

- **Efficient trading platform** – professional, orderly and efficient market with cutting-edge technology
- **Central limit order book** – fully transparent order book access showing real-time pricing
- **Wide product coverage** – expanding choice of product classes and tradable securities includes fixed coupons, floating coupons, zero coupons and index linked coupons
- **Access to natural interest order book** for wide range of European government bonds on EBM.
- **Work large orders efficiently** without moving the market – MTS MidPrice offers orderly price discovery and execution
- **Seamless integration** with pre- and post-trade applications – full STP and open architecture
- **Continual technological innovation** – rich functionality includes MidPrice matching, Trade Registration plus primary market tools such as primary auctions, switch auctions, taps and buy-backs
- **Complete automated settlement network** – links to all major European depositories and central clearing houses

04 Money Markets

The MTS Repo platform is an order driven market delivering deep liquidity for both cash investors and specific bond traders across Europe with fully automated settlement and connectivity to clearing houses.

With over 100 unique participants and liquidity across all eurozone markets, MTS Repo is a benchmark electronic trading platform for European repo. Order Book trading of repurchase agreements and buy/ sellbacks sits alongside Request for Quote (RFQ) and a dedicated OTC Trade Registration mechanism to offer maximum choice when executing.

MTS Repo supports cleared tri-party repo trading via €GC Plus, with automated connectivity to LCH SA and on to Euroclear.

Participants in the MTS Depo market benefit from access to unsecured funding markets alongside the established repo market. MTS BondVision Repo completes the money market offering by giving buy-side clients RFQ access to a large pool of dealers as well as to axes and interdealer market data.

Deep liquidity for both cash investors and specific bond traders

MTS Repo benefits include

- Transparent, orderly and regulated market
- Deep liquidity for both cash investors and specific bond traders
- Connects cash with collateral and inventories with short positions
- Extensive member and settlement network
- Comprehensive market and product coverage including tri-party
- Trade registration and post-trade services
- Fully automated settlement and connectivity to clearing houses

MTS Repo daily average volumes continue to grow

05

06 MTS Data

MTS has introduced various enhanced data products that range from historical and end of day to real-time and ultra-low latency feeds. MTS Data is taken direct from the leading interdealer EGB platform in Europe, MTS Order Book, capturing circa 80% of electronic D2D EGB trading volumes.

AS A MARKET DATA PROVIDER, WE OFFER:

- Non-commoditised data
- High-quality data
- Back-testing data
- On-demand support
- A flexible and transparent relationship

Due to a surge in requests to access high-quality data, MTS has responded with various enhanced data products ranging from real-time and ultra-low latency feeds, to historical and end-of-day data, to suit the diverse needs of market players.

MTS Real-Time Data

Cash High Frequency Data

CSDR Solutions

MTS Alpha

Cash & Repo Trade-by-Trade Data

BV Composite

Cash Tick-by-Tick Data

MTS Real-Time Data

Access executable and indicative prices direct from the source

Raw Data Feed

Raw data feeds are available from both MTS Cash Order Book and BondVision, providing pre- and post-trade data.

Raw data feed from MTS Cash Order Book provides executable prices on EGBs allowing traders to make decisions confidently. Consistent access to the most comprehensive source of EGB data offers an invaluable and unique insight into market turnover and volatility, whereas raw data feed from our dealer-to-client platform BondVision provides you with indicative quotes. You can receive MTS's Raw Data Feeds directly from MTS or through our licensed data vendors

Countries we provide data for on Raw Data feed for Cash: Austria, Belgium, Cyprus, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Israel, Italy, Netherlands, Poland, Portugal, Slovakia, Spain.

MTS Alpha

Subscribers to MTS Alpha can take advantage of this ultra-low latency premium data product, which gives price updates every c600 microseconds.

MTS Alpha includes all price updates received on bonds within the futures deliverable baskets in France, Germany, Italy, and Spain. This allows traders to rapidly identify and react to liquidity and price movements in the futures market.

COVERAGE

Prices are sourced directly from the following order books:

- MTS France
- MTS Germany
- MTS Italy
- MTS Spain
- European Bond Market (EBM)

BASKETS

Coverage includes the constituents of € bond future deliverable baskets

French

- OAT 10yr
- OAT 5yr

German

- BUXL 30yr

- BOBL 5yr
- SCHATZ 2yr

Italian

- BTP 10yr
- BTP 5yr
- BTP 2yr

Spanish

- BONO 10yr

BV Composite

Derived from our dealer-to-client BondVision RFQ platform, BV Composite is designed to provide an accurate indication of the market level for EGBs, UK Gilts, SSAs and covered bonds.

BV Composite is a robust composite price that can inform market trend analysis and feed into pricing engines, TCA reporting, risk management and portfolio management systems.

It is comprised of streaming composite Bid/Ask/Mid prices and yields on securities available on BondVision.

The screenshot below illustrates how BV Composite is shown in the BondVision GUI:

BV COMPOSITE					
BID YIELD	BID PRICE	MID YIELD	MID PX	ASK PRICE	ASK YIELD
-0.0366	106.566	-0.0386	106.575	106.584	-0.0407

MTS Time Series Data / Historical Data

Optimise research capabilities and develop strategies in a dynamic trading environment

Used by the world's leading financial and academic institutions, MTS Time Series Data offers different levels of depth and granularity, from daily market summary information to un-netted tick-by-tick pricing data.

Taken directly from the market-leading interdealer MTS Cash and Repo Order Books, the data is of the highest relevance, coming only from firm, fully executable prices.

MTS Time Series Data Packages:

- Cash and Repo Daily Summary Data
- Cash High Frequency Data
- Cash and Repo Trade-by-Trade Data
- Cash Tick-by-Tick Data

REGULATORY DATA PRODUCTS

MTS has developed a suite of innovative regulatory data products, including the MTS SFTR Blotter and MTS CSDR Closing Prices, to support market participants and infrastructure to fulfil their regulatory requirements.

SFTR Solutions

We've worked with a diverse group of industry stakeholders, including CCPs, industry groups, and other vendors to build our one-stop-shop of SFTR solutions for the D2C and D2D repo market.

CSDR Solutions

The CSDR mandates the use of bond closing prices from EU trading venues such as MTS with the highest turnover for the calculation of settlement fail cash penalties and cash compensation.

CSDs, ICSDs, clearing houses and market participants can source closing prices from three products MTS offers:

- MTS Cash Order Book Snapshots
- MTS BondVision Composite Prices
- MTS Reference Prices

See market events as they happen with MTS Data
