EURONEXT SECURITIES

Price List - Issuers

In force from 1st June 2025

/ MILAN

CONTENTS

1 GUIDELINES

The fee schedule is structured to assist clients in easily reconciling their invoices. A specific reference code identifies each fee allowing clients to quickly and easily check the invoiced amounts.

Fees are applied to corporate issuers and are expressed in euro and subject to VAT in the case established by law. Unless otherwise specified, fees are calculated and invoiced monthly, based on volumes recorded during the relevant month whilst annual fees are invoiced at the beginning of each year or in the month of adhesion or admission to the concerned service or functionality. Annual fees are fully due also in case of activation or withdrawal during the period of reference. Participation fees and financial instrument admission fees applied to companies issuing asset backed securities are invoiced on a delayed six-monthly basis.

Fees are debited through SEPA procedure with a value date corresponding 30 days from the invoicing date end of month or, if the client plays also the role of intermediary, the 15th calendar day (if a non-working day, the following calendar day) of the month following the invoicing date. If requested by the client and accepted by Euronext Securities Milan, the fees can be paid by the client through banking transfer by the same deadlines above reported.

Invoiced fees are not reimbursable if the participant recedes before the term of the reference period.

1.1 Fees of the Notary Service

1.1.1   Participation fees

Participation fees are applied:

● separately to clients issuing bonds and similar instruments (certificates of deposits, commercial papers, etc.) and to clients issuing shares and similar financial instruments ((warrant, funds, etc.).

● at the beginning of each semester (January and July of each year) and, in case of adhesion during a semester on a monthly pro-rata basis in the month of adhesion (the fee is calculated from the month of the adhesion to the end of the semester);

● also in case of account crediting failure of the issue account, on condition that a least one financial instrument is admitted;

● as a fixed amount, except for clients issuing listed shares for whom a sliding scale structure with a minimum and maximum fee is applied.

Here under an example of application of the fee for clients issuing listed shares:

● capitalization value (of first listing or of the previous semester period) equal to € 6,500,000,000;

EURONEXT SECURITIES

- in case of first listing/admission carried out on April 20th, the participation fee is invoiced in the month of April for an amount equal to € 2,497.25 for a three- month period (from April to June), calculated as follows: {[(5,000,000,000/1,000,000,000) x € 806.00 +[(6,500,000,000– 5,000,000,000)/1,000,000,000)]x € 643.00] /6} *.

- in case of an already listed, the semester participation fee is equal to € 4,994.50, calculated as follows: (5,000,000,000/1,000,000,000) x € 806.00 + [(6,500.,000,000– 5,000,000,000) /1,000,000,000] x € 643.00.

1.1.2 Participation profile management fee

The fee for the ordinary management of the participation profile is applied to the following set up and related changes in CLIMP:

- full configuration (static data, services, parties, accounts and connectivity) on behalf of the participant through a nonurgent procedure

- request of the BIC code to SWIFT on client behalf

- anticipation of the validity date of the BIC code (assigned by SWIFT) in T2S

- set up and changes of static data (parties, accounts, etc.)

- set up and changes of agent banks in T2/T2S.

In case of intervention according to the ordinary time and without any Euronext Securities Milan extraordinary effort the fee is not applied.

The fee for the urgent management of the participation profile is applied for the following configuration and change in CLIMP:

- full configuration of the issuer (general data, services, accounts and connectivity) on behalf of the client through urgent procedure.

1.1.3 Admission fee for bonds and similar financial instruments

Issuers, which are part of a group with the concerned parent company participating i as issuer, may choose one of the two following options for the application of the admission fee for bonds and similar financial instruments:

- 1st option: application of the fee to the issuer of the financial instrument

- 2nd option: application of the fee, based on the same regressive structure, to the parent company of the group of which the issuer is part with the counting of the issues subject to admission at group level under the following conditions:

  - The parent company shall send a certification, filled in according to a template provided by Euronext Securities Milan and reporting the list of entities which have given their consent to the application of the 2nd option;

EURONEXT SECURITIES

- The list of entities jointly with the parent company represents the "group" at the level of which the financial instruments subject to admission are counted for the application of the fee according to the regressive structure.

The request for the application of the 2nd option as well as any change in the "group" composition shall be communicated by the 15th day of each month and is effective:

- from the first day of the month of the communication if the list or the related change is effective before the 16th day of the month of the communication;

- from the first day of the month following the communication if the list or the related change is effective after the 15th day of the month of the communication.

1.1.4   Fee for the Easy Issuance Suite

The fee is applied for each financial instrument in the month of its admission and, for the following years, in the month of January till the expiration of the financial instrument and includes the activities delegated by the issuer to Euronext Securities Milan.

1.2 Fees applied for corporate actions

Fees for corporate actions are applied according the following criteria:

- in case of corporate action on the same value date, on more kinds of financial instrument, the fixed fee is debited to the issuer only once, regardless of the number and the type of financial instruments involved;

- the account computation to calculate the variable fee and the cap is based on the sum of the moved accounts for each kind of financial instruments, excluded rights;

- for continuously managed corporation actions (warrant exercise and conversion) the issuer is debited with the fixed annual fee at the first start and, after, at the beginning of every solar year and at the closing of each operation, and with the variable fee for every execution;

- in case of payment of previous dividends or dividend reversal the fixed fee is not debited to the issuer while the variable fee is applied for each execution;

Fees are applied at the end of the month in which the related operations take place.

The corporate actions fees[1]   not explicitly mentioned in this document are defined case by case based on the complexity and operational risk associated.

Here below example of the application of fees for the payment capital increase of a company that involves 280 intermediary accounts:

---

[1] For example, the merger between an Italian and a foreign company

EURONEXT SECURITIES

Fixed fee+ (variable fee x number of accounts) = € 561.00 + (€ 56.00 x 280) = € 16,241.00.

Issuers of covered warrants and certificates:

- are allowed to choose between to pricing options for the payment of those financial instruments:

  With regard to the first option fees for payments on covered warrants and certificates are applied as follows:

  - the annual fee is applied each year when the first mandate for the payment is given and on a monthly prorate basis in case the first mandate is given after the first month of the year; in case more issuers of the same group ask for the payment management the fee is applied to one issuer of the group only.

  - the unit fee is applied for each payment event.

  With regard to the second option a monthly fee is applied and, in case of more clients of the same group, is applied to a sole client of the group.

  The change in option shall be communicated each year by 15th December and is effective starting from the following year.

- can request the management of reverse split events to which fixed and variable fees are applied; the account computation to calculate the variable fee and the cap is based on the sum of the moved accounts for each kind of financial instruments.

1.3 Reductions and discounts

The following reductions are applied to fees of the Notary Service:

- companies issuing shares listed on Euronext Growth Milan benefit from a reduction of 20% on the amounts of participation fees;

- companies issuing exclusively mini-bonds listed on ExtraMOT PRO benefit from a reduction of 50% on the amount of participation fees (invoiced with invoicing code ITBI0001a).

EURONEXT SECURITIES

2 NOTARY SERVICE
The service provides for the application of fees separately to issuers of bonds and similar financial instruments and to issuers of shares and similar financial instruments.

2.1 Participation fees

The participation fees include the contract management, the management of contractual activities and of the issuer account, the end of day account reconciliation and the real time account reporting and compliance activies under Euronext Securities Milan competence.
