1. GENERAL CRITERIA

1.1 Markets coverage

1.1.1 Available listing marketplaces

This document covers the following Euronext ETP marketplaces: Amsterdam, Brussels, Dublin¹, Lisbon, Milan, Oslo and Paris.

1.1.2 Euronext Market Undertakings

The above markets are operated by the following legal entities

- Borsa Italiana S.p.A.
- Euronext Amsterdam N.V.
- Euronext Brussels S.A./N.V.
- Euronext Lisbon - Sociedade Gestora de Mercados, S.A.
- Euronext Paris S.A.
- Oslo Børs ASA.
- The Irish Stock Exchange Plc.

1.1.3 Supported currencies

ETF trading² is supported in 20 currencies, facilitating investor access and removing currency barriers: AUD, CAD, CHF, CNY, DKK, EUR, GBP, HKD, HUF, ISK, JPY, MXN, NOK, NZD, PLN, RON, SEK, TRY, USD, and ZAR.

All amounts included in this Fee Book are in Euros. If Securities are denominated in a currency other than Euros, the conversion to Euros shall be calculated by the Relevant Euronext Market Undertaking, using the applicable exchange rate published by the European Central Bank.

1.2 Issuer aggregation

Issuers of the same parent company can be aggregated, provided that the controlling entity holds more than 95% of the subsidiaries to be aggregated.

¹ Excluding *technical admissions*, which are listed ISINs with no order book availability.

² ETP Market operated by Borsa Italiana S.p.A. excluded.

The Group of issuers can benefit from a monthly volume aggregation in admission fees (2.1 Gross admission fees).

1.3 Payment instructions

Unless otherwise stated, invoices issued for the above mentioned fees must be paid within 30 days from the date of the invoice by bank transfer to the bank details mentioned in the invoice document.

All amounts mentioned in this Fee Book are exclusive of any tax, duties, charges or levies payable by any Person or Legal Entity.

2. ADMISSION FEES

2.1 Gross admission fees

The following fees are charged according to the number of instruments admitted over the month to each market within Euronext marketplaces:

- First 20 ISINs charged in the month: €5,000 / ISIN
- Following 30 ISINs charged in the month: €3,500 / ISIN
- Subsequent ISINs charged in the month: €1,750 / ISIN

Instruments admitted with the specific purpose of absorbing merged instruments already listed onto the Euronext market are free of charge, and their admission does not contribute to the monthly volume counter.

2.2 Discounts on specific products

The following types of ETP are discounted by 50%:

- Leveraged products
- Short products
- Exchange Traded Commodities
- Exchange Traded Notes

Instruments whose underlying is an index disseminated and licensed by Euronext are free of charge and their admission does not contribute to the monthly volume counter, as described in the paragraph.

2.3 Multi-currency waiver

All ETPs already listed in any of the Euronext marketplaces are offered free admission for additional listing of the same ISIN in different trading currencies, starting from the second admission in any Euronext marketplace (ref.: 1.1.1 Available listing marketplaces).

3. ANNUAL FEES EURONEXT GROUP

3.1 Gross annual fees

3.1.1 Invoicing timeframe

All ETP annual fees are due in advance, at the beginning of the calendar year.

Annual fees are not refundable, even though instruments are delisted from the market after being charged.

Delistings are free of charge.

3.1.2 Assets Under Management definition

Gross annual fees are based on each ISIN's Assets Under Management, as observed on last Group full trading day of December preceding the year to which reference is being made.

Assets Under Management is calculated as: Outstanding shares at year end multiplied by the Net Asset Value of each share at year end.

For ISINs traded under a non-Euro-denominated currency, the value of the Total Shares Outstanding in Euros is calculated using the ECB currency rate on last Group full trading day of December of the previous year.

3.1.3 Gross annual fees

Gross annual fees are 0.15 basis points³ on Assets Under Management, with a minimum of €1,500 / ISIN and a cap at €12,000 / ISIN.

3.2 Liquidity-based discounts

The following discounts are offered on annual fees, based on the percentiles of average daily value traded by each ISIN.

The average daily value traded is calculated over the calendar year preceding the year to which annual fees are referred (from January to December)⁴.

The average daily value traded is aggregated for all marketplaces where the instrument is listed and traded (as per 1.1.1 Available listing marketplaces). The calculation is made over the Group trading calendar, irrespective to the local calendars.

³ For example, the gross annual fee of an ISIN with AUM of €500m is €7,500 (0.15bp or 0.0015%)

⁴ Instruments that are waived in their first listing year start contributing to the liquidity percentiles from the following year. Those instruments have a discount applied for the first time in the third year, according to the liquidity measured in the second year of trading.

FY Average daily value percentile		
From	To	Reduction (%)
0	50%	0%
50%	60%	-10%
60%	70%	-15%
70%	80%	-20%
80%	90%	-30%
90%	100%	-50%

3.3 Multi-listing discounts

Annual listing fees are reduced according to the number of markets⁵ where an ISIN is admitted to trade, as follow:

- One marketplace of listing: fully due.
- Two marketplaces: 25% discount in each of the two countries.
- 3 marketplaces: 40% discount in each of the three countries.
- 4/more marketplaces: 50% discount in each of the first four countries, free for the additional ones.

3.4 Time-based discounts

The first listing year is considered as the year in which the instrument is made available to trading.

- The first year of annual fees is offered to all ETP issuers fully free of charge⁶. From the second listing year onward annual fees are fully due.
- Following a merger of instruments, the listing date of the absorbing instrument will be considered to be the earlier of the two (between absorbed and absorbing).

⁵ Excluding technical admission to Euronext Dublin.

⁶ For example, instruments admitted to trading in January are charged only for their admission fees, and no annual fees are due for the calendar months until year end. Annual fees will not be charged anytime sooner than the following January, in the instrument's second listing year.

3.5 Euronext legacy transitory scheme

All ETPs admitted to Euronext markets up to and including 31 December 2022 are granted the waiving conditions on annual fees deriving from their admission⁷. In particular:

- 2024 annual fees are waived for all ETPs admitted between 1 January 2021 and 31 December 2022 with Assets Under Management in Euros on 31 December 2023 lower than €50m
- 2025 annual fees are waived for all ETPs admitted between 1 January 2022 and 31 December 2022 with Assets Under Management in Euros on 31 December 2024 lower than €50m.

3.5.1 Invoicing timeframe

All ETP annual fees are due in advance, at the beginning of the calendar year.

Annual fees are not refundable, unless instruments are delisted from the relevant Euronext market before 1 March in the year being invoiced.

Delistings are free of charge.

⁷ This does not apply to instruments admitted in Milan and Dublin, because the waivers from which they benefitted at admission do not go beyond 31 December 2023.
