1. Introduction

The Fee Book presented herewith sets the fees and commissions owed Euronext Securities Porto - Sociedade Gestora de Sistemas de Liquidação e de Sistemas Centralizados de Valores Mobiliários, S.A., (hereinafter referred to in this document as Euronext Securities Porto), in return for the services rendered to Issuer Entities.

All the commissions/fees referred to in this document are expressed in euros.

VAT at the legal rate in force shall be added to the amounts charged by Euronext Securities Porto, if and when due.

2. Principles and Concepts

2.1 Application of the fees

Unless otherwise set out in the present Fee Book, the stipulated commissions shall apply:

- a) Regarding shares to the total registered share capital, even if several security codes have been assigned by Euronext Securities Porto due to the non-fungibility of those securities;

In all other cases, to the total amount of securities registered under each security code assigned under the terms established in the present Fee Book.

2.2 Charging and settlement procedures

The payment of owed commissions due to actions carried out each month must be done on the 15th day of the month (or the next business day) following the one they concern, unless otherwise prescribed by the Fee Book presented herewith.

The above-mentioned payment is done exclusively by one of the payment methods identified below:

- a) By debiting an account opened directly in TARGET2, in the case of an issuer that is simultaneously a Financial Intermediary affiliated with Euronext Securities Porto;
- b) By debiting an account opened in TARGET2 with a Financial Intermediary identified by the issuer;
- c) By direct debit to account;
- d) By bank transfer.

The means of payment mentioned in paragraph a) above is necessarily applicable to all issuers that, due to their nature, have an account opened in TARGET2.

All debtor entities that do not have an account directly opened in TARGET2 must opt between by one the means of payment referred to in paragraphs b), c) or d), for which they shall send to Euronext Securities Porto, before the first invoice is issued, the necessary communication and if deemed necessary the respective authorization.

For foreign securities that are registered in another CSD and are circulating in Portugal, through an indirect link connection, the commissions established in this Fee Book are paid by the connecting Financial Intermediary, unless the issuer, expressly request from Euronext Securities Porto the direct payment of the afore-mentioned commissions.

The minimum monthly payable amount is € 2.78 (two euros and seventy-eight cents), if the amount to be charged per invoice is inferior to that same amount.

The calculation of the payment of commissions will be carried out in euros and, if necessary, the basic amounts subject to charging as mentioned in the tables will be converted to euros before applying the percentages defined in the fee tables.

2.3 Payment default

If any commissions are not paid on the stipulated date, the debtor shall be responsible for the payment of legal interest over the amount in debt to Euronext Securities Porto.

The lack of payment of the due fees to the managing entity by the issuers may lead to the ending of the contractual relation, resulting in the exclusion from the centralized system of all securities issues of the defaulting entity.

The above-mentioned procedure shall only occur after Euronext Securities Porto's decision, which must be duly justified and communicated to the issuer entity.

2.4 Fees of the services provided not defined in this Fee Book

The fees due for the services provided by Euronext Securities Porto and not defined in this Fee Book shall be defined on an ad hoc basis according to their nature or characteristics.

2.5 Group concept

For effects of the present Fee Book, a Group includes all participants in the systems managed by Euronext Securities Porto which belong to a juridical-tax relevant group, under the terms of the Corporate Income Tax (IRC) Code, with the specifications above referred.

All entities belonging to the same group which aim to benefit from the advantages set out in the present Fee Book must prove so before Euronext Securities Porto, through copy or certificate of delivery to the Tax Authorities of the official model declaration, necessary to the application of the special regime of determination of the assessment income to all companies of the group, under the terms of the IRC Code.

Euronext Securities Porto accepts, for the purpose of the present Fee Book, that a group of companies, which do not fulfil the requested in the article 63 (03) (a) of the IRC Code, or regarding the companies

of the same Group, the situation set forth in article 63 (4) (d) exists, could be considered as a Group as far as they fulfil the other requirements referred to in the aforementioned legal disposition, namely:

- a) The dominant company detains, directly or indirectly, at least 90% of the share capital of other dominated companies, since such participation confers more than 50% of the voting rights;
- b) All the companies of the same Group have headquarters and effective management in Portugal;
- c) The dominant company detains the participation on the dominated company for more than one year;
- d) The dominant company cannot be considered dominated of any other company residing in Portugal, which meets the requirements to be qualified as dominant.

For the application of what is set, the companies belonging to the same group should prove to Euronext Securities Porto the fulfilment of the other conditions for the applicability of the criteria, by delivering the documentation that shows clearly that situation.

The entities that prove to belong to a same group agree to keep such information updated and true, otherwise all amounts improperly invoiced shall be recalculated without the benefits inherent to the said participation.

Any change to the structure of the Group shall only have effects on the month following its communication to Euronext Securities Porto.

2.6 Sliding scale

The use of sliding scale will allow Issuer Entities to get lower marginal rates as the volume under management of Euronext Securities Porto increases.

3. Registration and cancellation of issues

3.1 Registration of issues

A fixed amount set out in the table below is charged for the registration of securities in the centralized securities system, for each issue or series of securities.

This fee is charged for the registration of each different series of the same issue or of tap issues.

This fee is not charged for issues resulting from corporate actions carried out by Euronext Securities Porto.

Euronext Securities Porto gives discounts the issuer based on the number of requests for registration every year.

3.3 Registration of issues of Warrants and Certificates

The registration of issues of warrants and certificates, traded on the market, on MTFs or over the counter (OTC) applies the fee set out in the Table below.

Euronext Securities Porto applies the fee set on the date of the first trade executed.

Service	Fee per register	Invoicing code
Registration of warrants and certificates	10.50 €	IB5008

Euronext Securities Porto has set an annual maximum amount to be paid by each entity issuing warrants and certificates at €60,000.00 (sixty thousand euros), considering for this amount the annual amounts charged for the registration, redemption, and cancellation of issues of warrants and certificates, as set out in paragraph 5.9 of the present fee book.

3.4 Issues redemption and cancellation - Debt and Equity Representatives

Cancellation means every annulment or decrease of the quantity of securities held in the issuing account, namely in case of:

- a) Redemption operations processed outside the system;
 - Removal of issues from the centralized system by the issuer's decision;
 - Cancellation of securities due to the merger by incorporation in a company, which shares representing the share capital are not registered in the centralized system.

For the cancellation of securities a fixed fee shall be charged to the issuer, on a monthly basis, subject to discounts based on the number of similar operations, of redemption or cancellation, performed during the year, according to the table below.

Number of operations per year	Fee per operation	Invoicing code
from 1 to 20	555.00 €	IB5001

from 21 to 100	333.00 €	IB5001
From 1 on 999.999	55.50 €	IB5001

3.5 Issues redemption and cancellation - Commercial Paper, Participation Units, Treasury Bills and Securities resulting from credit securitisation transactions

Issues of commercial paper, fund units, treasury bills and securities resulting from securitization operations (securitization bonds and securitization units) are charged with the fee set out in the table below.

The table also applies to redemption or cancelation of operations resulting from the transfer of securities between different assigned security codes, belonging to the same issue of bonds.

Number of operations per year	Fee per operation	Invoicing code
De 1 a 999.999	55,50 €	IB5014

4. Securities safekeeping

4.1 Issues maintenance

The monthly maintenance fees for issues registered in the centralized securities systems, calculated by applying the annual percentages, set out in the tables below are based on the monthly average value of the issues registered in issuance accounts calculated from their daily value.

Warrants, certificates, rights resulting from corporate actions processed through the centralised securities system and provisory securities are exempt from maintenance fees.

The valuation of the holdings is based on:

- The nominal value, for debt instruments and other unlisted securities, as well as whenever the market price is not divulged by the market managing entity or when Euronext Securities Porto has no access to it; however, the valuation is based on the value of the total issue, when debt instruments are represented in amount of nominal value, and if the issue in question uses the pool factor method, the amount of the issue must be multiplied by the value of the pool-factor;

- b) The prices or market values, divulged by the respective managing entity, for listed securities that do not represent debt:
 - i. Whenever the market price is provided to Euronext Securities Porto by more than one national managing entity, the price divulged by the regulated markets' managing entity prevails, even if the securities in question are listed in other markets or systems.
 - ii. Whenever Euronext Securities Porto does not get information on time about the most recent market price, for effects of valuation, the latest known market price for the purpose shall be used.
 - iii. In the case of entities that are undergoing insolvency procedures or liquidation, and which securities have been listed in the market and then excluded from trading for that same reason, the latest market price, which was known and used previously by Interbolsa for the calculation of the maintenance fee, shall be used for the purpose of valuation.
- c) The unit value of the fund units, informed by the Managing Entity on the date of the registration in the centralized system, for unlisted fund units;
- d) The issue value, corresponding to the fraction of the share capital in question, for shares without par value, not listed to trading on a market.
- e) At nominal value, in the case of conversion rights allocated to the State, constituted under the terms provided for in Law no. 61/2014, of 26 August (Special regime applicable to deferred tax assets).

For foreign securities registered with other central securities depositories, and which are in circulation in Portugal through an indirect link, the issue maintenance fee is calculated based on the amount in circulation in Portugal registered in the special registration and control account opened with the centralised system.

In the case of securities issued jointly by more than one entity (so-called group issues), the Issuer Entity to benefit from the discount is the one that is liable to Euronext Securities Porto for the processing of any corporate action or the one that is indicated as being responsible for paying the fees charged by Euronext Securities Porto.

The calculation of the monthly maintenance fee is made according to a scaling method, by entity and group, based on the application of marginal rates, consisting in the application of each scale rate to the corresponding value.

The scale to be applied to the group is determined based on the value of all the types of securities held in account, except for securities exempt from maintenance fees.

For securities denominated in a currency other than the euro, the amounts calculated are converted into euros on the last business day of the month using the Banco de Portugal reference exchange rate on the day of processing.

The tables to be applied regarding issues maintenance are as follows:
