- **Celebrating excellence in the Portuguese capital markets**

**Lisbon – 5 February 2026** – Euronext, the leading pan-European market infrastructure, announced the winners of the 15th edition of the Euronext Lisbon Awards, recognising issuers, financial intermediaries, institutions and individuals who made a significant contribution to the development of the Portuguese capital markets in 2025. The awards are granted with the support of a jury composed of the members of the PSI Committee.

The awards were presented during Euronext's annual flagship event in Portugal, sponsored by Capgemini, and attended by senior representatives from the financial sector, industry leaders and public authorities. The evening brought together key stakeholders to discuss Europe's growth, strategic autonomy and long-term competitiveness.

The programme opened with the traditional Ring the Bell ceremony led by Isabel Ucha, CEO of Euronext Lisbon, alongside Cristina Rodrigues, CEO of Capgemini Portugal. Discussions then focused on Europe's strategic autonomy and the financing opportunities emerging in the aerospace and defence sectors, with contributions from Marta Testi, CEO of ELITE, part of Euronext, and Rui Santos, Executive Director of AED Cluster Portugal, moderated by Rita Albuquerque, Listing Director at Euronext Lisbon. The event concluded with a forward-looking conversation on defence and sovereignty as a new driver of Europe's economic development, featuring Ricardo Santos Lopes, Head of Business Growth & Executive Board Member at Capgemini Portugal.

**Blue Innovation Award**

In addition to recognising excellence across capital market activities, the ceremony also provided the opportunity to present the Euronext Blue Innovation Award – Portugal, highlighting Euronext's commitment to sustainability, financial literacy and youth entrepreneurship. The Portuguese national winner, BioCatch, developed by a team of 12th-grade students from Colégio Campo de Flores, was distinguished for an innovative project combining biodegradable fishing nets reinforced with flax fibres and an acoustic sensor designed to reduce bycatch and protect marine life. The winning team went on to represent Portugal at the European final in June.

The Blue Innovation Award is part of the Blue Challenge, an entrepreneurship education programme launched by Euronext in partnership with JA Worldwide. The initiative encourages students aged 16 to 18 to develop sustainable business projects linked to the blue economy, fostering entrepreneurial skills, teamwork and awareness of sustainable finance. National winners from participating countries compete at European level, showcasing innovative solutions that support climate change mitigation and the sustainable use of ocean resources.
