New release BCS GUI and API

To the attention of:	**Members of Derivatives Sections**
Priority:	**Medium**
Topic:	**BCS and API updates**

Following yesterday's announcement that Borsa Italiana Group joined Euronext, please note that there will be no change to your credentials to access CC&G BCS, both GUI and API version, nevertheless, we strongly recommend to install the latest version of both applications from Borsa Italiana web site under the following link:

https://www.borsaitaliana.it/borsaitaliana/gestione-mercati/bcs-bitclearingstation/bcs.htm

1) BCS GUI

   a. BCS Client 5.8.8 (CDS)

   b. BCS Client 5.8.8 (PROD)

   this version includes the new CC&G brand following the integration with Euronext Group.

2) BCS API

   a. API ver. 1.6.3 Windows VS2013 (64 bit)

   b. API ver. 1.6.3 Windows VS2013 (32 bit)

   c. API ver. 1.6.3 Linux Red Hat (64 bit)

   d. API ver. 1.6.3 Linux Red Hat (32 bit)

   this version, both Linux and Windows OS, is strongly recommended in order to benefit from CC&G Clearing services using your own or third party applications.

Finally, please note that BCS API for Sun and Oracle Solaris OS (latest version BCS API 1.5.2) are no longer supported.
