Change in form for tax refund GERMANY

For the attention of: Intermediaries
Re: GERMANY: Change in the form for applying for a refund of foreign tax for non-resident beneficiaries

Dear Client,

Following the decision of the German tax authority to replace the form for applying for a tax refund for non-resident beneficiaries, the tax guide for the market in question has been updated and is posted [at this link](#) and on the website, with details and instructions for compiling the new official form.

The final beneficiary is responsible for compiling the new form, which must be completed online on the [web page posted by the Authority](#), printed, and the hard copy sent to Monte Titoli.

For further details, see the published guide.

The procedure is implemented with immediate effect. Accordingly the previous model concomitantly **ceases to be valid**.

There is no change in the current rate or in market deadlines.
