MONTETITOLI4U – operating systems – update

To the attention of:	**All Participants**
Topic:	**MOTI4U – operating systems – update**

Dear Client,

Further to previous Operational Notices No. 59 and No. 62, please note that the removal of security protocols no longer usable for Monte Titoli web services will take place in the production environment on 6 November 2021.

Note also that the only compatible operating system will be Windows 10, while at present, the browsers that can be used with MONTETITOLI 4U are Microsoft Edge, Mozilla, Firefox and Chrome.

For further information please contact:
