# T2S: ACCESS RIGHT MANAGEMENT IN PRODUCTION

To the attention of:	<b>DCP</b>
Priority:	<b>medium</b>
Topic:	<b>T2S R6.0 go-live via ESMIG: preparation for migration to the production environment</b>

Dear Client,

We are pleased to announce that as of today, you may start the configuration activities in preparation for migration to the T2S production environment via ESMIG which, you are reminded, will take place on 4th July 2022 concomitantly with the release of T2S Release 6.0.

While a description of the actions you have to take are set out below, please note that you can already assign a Distinguish Name ESMIG to your "old" user accounts. This is a necessary step to be performed in advance of the configurations indicated below.

Euronext Securities Milan has assigned the following privileges to all DCP Parties via the "Role-DCP-Access" role to enable access to the following GUIs via ESMIG:

- Target 2 Securities (T2S) → T2S\_Access
- Common Referential Data Management (CRDM) → CRDM\_Access
- Business Day Management (BDM) → BDM\_Access

© 2022, Euronext N.V. - All rights reserved.

Your Party Administrator is required to assign privileges, either directly or via the said "Role-DCP\_Access", to your internal users in order to enable access to the specific ESMIG GUI in the production environment.

Note also that existing configurations have not been modified and will be automatically migrated from T2S to the CRDM.

CRDM\_Access has already been assigned to your administrator user via the Role-DCP-Admin role. This means that the said administrator user only has to directly assign T2S\_Access and BDM\_Access privileges to its own user (not through role assignment), if it wishes to have access to the T2S and BDM GUIs.

DCP participants are urged to perform these steps sufficiently in advance given that, as of 4 July 2022, T2S will be accessible only and exclusively through ESMIG (T2S Release 6.0- CR 701), the Eurosystem Single Market Infrastructure Gateway that will be the only point of access for all Target services.
