MT-X Access: Enabling TLS 1.3 protocol in the PRODUCTION environment

To the attention of:	All clients
Priority:	High
Topic:	MT-X Access Enabling TLS 1.3 PROD

Dear Client

in order to efficiently schedule the activation of the TLS 1.3 protocol in the PRODUCTION environment, we kindly ask you to check and, if necessary, **enable** outbound **port 8443** for connecting to **MT-X** in PRODUCTION. The activation of the TLS 1.3 protocol is required for security reasons.

If you do not enable this outbound port, you will not be able to connect to the MT-X application in PRODUCTION.

The go live in PRODUCTION is scheduled for **26 October 2026**, so we kindly ask you to proceed with this activity as soon as possible and provide us with feedback.

We also ask you to carry out the same activity in the **TEST** environment, as the TLS 1.3 protocol is already active in TEST.
