### **Amundi launches 13 new ETFs on NYSE Euronext Paris 10 are without precedent**

**Paris, 19<sup>th</sup> January 2010** – Following the launch of 41 ETFs in 2009, Amundi is pursuing CASAM ETF's development strategy by listing 13 new products on NYSE Euronext Paris, 10 of which are without precedent:

- **Six unprecedented short bond ETFs**

This series of ETFs, unique in Europe, replicates the EuroMTS Eurozone Government Broad index, benefiting from advantageous market conditions and allowing investors to position themselves for a potential rise in interest rates. These products offer a reverse exposure to EMU government bonds with maturities ranging from 1 to 15 years.

- **Four new commodity ETFs, three of which are unique**

CASAM ETF now offers a new ETF category which provides investors with an exposure to the main underlying commodities. These four new ETFs replicate the S&P GSCI Light Energy, S&P GSCI Non Energy, S&P GSCI Metals and S&P GSCI Agriculture, offering investors opportunities for portfolio diversification.

- **Two European equity ETFs**

CASAM ETF is extending its regional ETF range by creating two new products based on the MSCI Europe index, providing exposure to European equities excluding Switzerland or EMU markets.

- **One emerging market ETF**

CASAM ETF is completing its range of emerging markets ETFs with the launch of a product based on the MSCI Brazil index. This product allows investors to gain exposure to the leading Brazilian stocks through a single transaction.

The CASAM ETF range now comprises 78 products which, with management fees among the lowest on the market, are characterised by their competitive pricing.

As part of the CASAM ETF product range, these new products are distributed by a dedicated sales team at CA Cheuvreux and by the sales teams of Amundi.
