

# MYQUOTE PRO

Euronext now brings you MyQuote Pro– a highly flexible and adaptable solution which allows you to display your real-time data on your own website in an unlimited range of chart displays. Helping you raise your profile as a listed company on our markets, and to enhance the capabilities provided by the existing MyQuote service.

## CUSTOMISABLE DATA DISPLAY

Thanks to the simple JSON format used by your Web Master, MyQuote Pro enables you to tailor your stock information charts to your own preference using a substantial amount of filter criteria and even lets you adapt the font and colour-scheme of the charts in keeping with the your brand.

## CUSTOMISABLE CHARTS

Build your own Intra-Day and Historic charts using one of the customisable templates and select criteria to display your stock's performance on your website.

## SECURITY AND FLEXIBILITY

Euronext will provide you with a URL and an activation key to display the data in JSON format which can simply be copied and pasted in HTML format on to your website.

You can also use your Connect access to generate the data required to display your stock data charts on your own website.
