

# MARKET ABUSE REGULATION

## Managed Service

The **Market Abuse Regulation** (MAR) came into effect in 2016 and set out **key regulatory requirements** aimed at enhancing the attractiveness of securities markets for capital raising and increasing the integrity of the markets themselves.

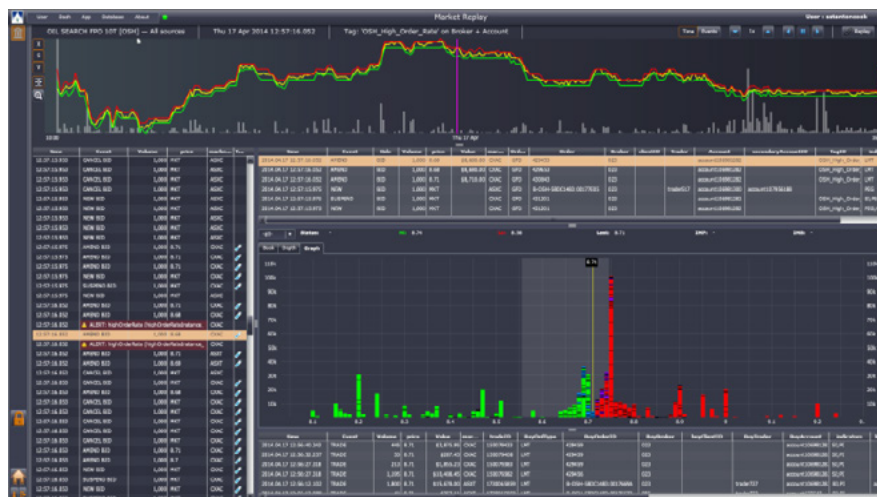

MAR applies to financial instruments on regulated markets, multilateral trading facilities (MTFs) and organised trading facilities (OTFs), as well as instruments whose price influences or is influenced by such an instrument.

Euronext's managed MAR service provides a **critical tool** to help you **meet the obligations** of MAR quicker and with lower capital investment than installing a local solution with your own internal IT resources.

As a financial firm with an ever increasing need to detect abusive or non-compliant trading quickly and accurately, you will be looking for compliance tools built by fellow industry professionals. As a commercial firm under pressure to cut costs and improve margins you will be looking for low-cost solution with no up-front investment.

Euronext's MAR compliance service has been designed by one of the Europe's leading exchanges to be the most cost-effective solution to your MAR obligations.

ZERO FOOTPRINT WEB PRESENTATION

	Features list
<b>EFFICIENT</b>	GUI presented on compliance staff desktops without the need for IT development or deployment
<b>COMPREHENSIVE</b>	Pre-configured MAR alerts (Ping, Wash, Insider Dealing, Front Running etc.), case management workflow and order book replay  Supports all EU trading venues with market data supplied by industry leading data provider, QuantHouse
