## NYSE Euronext reorganises French market indices

– A harmonised range of indices, simpler and more user-friendly –

**Paris, Thursday, 03 February 2011** – NYSE Euronext (NYX) today announced plans to harmonise its range of indices in Paris to further enhance visibility and liquidity for both issuers and investors.

The changes have been approved by the Expert Indices Committee of NYSE Euronext in Paris and will take effect on 21 March 2011. They include extending rules used to manage the CAC 40® index to all market-wide indices for NYSE Euronext<sup>1</sup> in France, removing some indices with limited added value, and revising others to better represent the market’s three main segments: small, medium-size and large capitalisations.

The CAC 40® is the leading benchmark for Paris on international markets. A tool for portfolio development, it is the basis for a growing range of structured products and derivatives, and is made up of stocks selected on the basis of free float<sup>2</sup> and turnover. NYSE Euronext indices in Paris will now all be subject to the same rules as the CAC 40®: they will be calculated and disseminated in real time – every 15 seconds – making them more dynamic than ever, and facilitating their replication and the listing of derivatives based on them.

Changes in the range of NYSE Euronext indices in Paris are shown below:

Index	Comments	ISIN code	Ticker symbol
CAC 40®	No change	FR0003500008	CAC 40, PX1
CAC Next 20®	No change	QS0010989109	CN20
CAC Large 60®	New – will include CAC 40® and CAC Next 20® component stocks	QS0011213657	CACLG
CAC Mid 60®	New – will replace the CAC Mid 100®	QS0010989117	CACMD
SBF 120®	Will now combine component stocks of the CAC Large 60® and CAC Mid 60® indices	FR0003999481	PX4
CAC Small®	New – Will replace the CAC Small 90®	QS0010989125	CACS
CAC Mid & Small®	New – Will replace the CAC Mid & Small 190®	QS0010989133	CACMS
CAC All-Tradable®	New – Will replace the SBF 250®	FR0003999499	CACT
CAC All-Share®	Will now include all companies listed in Paris <sup>3</sup>	QS0010989141	PAX

*“With the NYSE Euronext family of indices, listed companies can raise their visibility in the financial community and boost trade volumes. Indices also serve as bases for new financial products and are benchmarks for both investors and fund managers,”* said Roland Bellegarde, NYSE Euronext’s Group Executive Vice President in charge of European Listing Business and Cash Trading.

*“Changes within NYSE Euronext’s range of indices in Paris are aimed at improving the liquidity and visibility of our French market, and will also promote small and medium-sized listed companies,”* he added.

<sup>1</sup> Except for the CAC All-Share® index, which will be aligned on NYSE Euronext’s other national All-Share indices.

<sup>2</sup> Float is the part of a company’s capital that is available to investors in the public.

<sup>3</sup> Companies incorporated in a country other than the country of the market of reference will be included only if their annual turnover is above 3%.
